1873.

ABBREVIATIONS.

N. R. H. FOR NAIRNE'S REVENUE HANDBOOK.

R. C. FOR THE REVENUE "CIRCULAR ORDERS" OF 1860.

G. R. FOR GOVERNMENT RESOLUTION.

PREFACE.

The following Manual has been prepared in accordance with Government Resolution, Financial Department, No. 1454, of November 6th, 1869, which sanctioned, on the recommendation of a Committee which had assembled at Poona in the previous September, the adoption of certain forms which I had suggested in lieu of the Talooka Ledgers and numerous disjointed Revenue Accounts kept at the Huzoor, and also entrusted to me the duty of superintending the issue of a new complete list of the Revenue Account Forms to be retained, with such explanatory remarks as might be deemed necessary.

The designation "Revenue Accounts" is perhaps not strictly accurate, but will sufficiently indicate the scope of this work, which is intended to embrace all Accounts which are kept by the Revenue Department, as such, in consequence of its own more or less direct responsibility, but not those purely financial ones which it prepares at the instance of the Accountant General, or those special ones, such as of Local Funds disbursements, which are under the control of distinct agencies.

T. C. H.

July 1870.

The Manual of Revenue Accounts was made a text book of Vernacular Accounts at all departmental examinations by Government Resolution Revenue Department, No. 4254, of September 5th, 1870, and versions in Gujarati, Marathi, and Canarese were issued simultaneously with it to all Mamlutdars and Village Accountants throughout the Presidency. The English edition being exhausted, I was instructed by Government Resolution, Revenue Department, No. 791 of February 11th, 1873, to prepare another. The opportunity has been taken to make all such corrections as were necessitated by orders of Government subsequent to July 1870, as also to insert, with the concurrence of the two Revenue Commissioners, the Accountant General, or Government, as the case required, various additions and emendations which experience or representations made to me showed to be desirable. The work as a whole, however, remains intact in principle and matter, and all changes of any importance will be summarised in a vernacular circular, so that the utility of the vernacular edition may be unimpaired. To those to whom the work may appear to retain many imperfections, I would offer the consideration which has often restrained me, when tempted to alter forms and to subvert established ideas, that better results are likely to be obtained from the vast body of subordinate officials entrusted with account duties through a system well known and steadily maintained, even though here and there imperfect in detail, than through one subject to perpetual petty change on every chance suggestion made in the pursuit of a theoretical perfection.

T. C. H.

September 1873.

PART I.

VILLAGE ACCOUNTS.

INTRODUCTION.

The papers which a Village Accountant is ordinarily required to keep are the following :—

1. Register of Lands.
2. Statement of Government Waste Lands.
3. Statement of Inspection of Lands, Crops, and Boundary Marks.
4. Register of Boundary Marks out of Repair.
5. Ledger of Receipts and Disbursements.
6. Rent Roll.
7. Statement of Increase and Decrease.
8. Statement of Disputed Cases.
9. Register of Alienated Lands.
10. General Abstract of Lands and Revenues.
11. Day Book.
12. Ryot's Receipt Book.
13. Statement of Population and Resources.
14. Register of Births and Deaths, with Monthly Abstract.
15. Register of Water Supply.
16. Statement of Crops and Produce.
17. Inward and Outward Registers.
18. File of Razeenamas and Kaboolats and Inward Papers.

The basis of all the Village Accounts is the Register of Lands (No. 1). In Talookas which have not been settled by the Revenue Survey, this Register is sometimes kept in the old Blane's

Form No. 1, and sometimes in the form here given, which was introduced in 1864. Occasionally, local peculiarities lead to further deviations from uniformity. On the introduction of the Survey rates, however, the Superintendent supplies a new Register in the form here given, in which the whole of the village lands appear according to the new system. He also gives certain subordinate statements of the details of the settlement, which need not be enumerated here, as they are made for the year of settlement only, and are afterwards deposited in the records.

With the Register as a basis to go upon, the Village Accountant proceeds every year to record the actual state of the whole of the village lands, and the amount to be levied from various parties for their occupation. The examination and approval of this annual record by competent authority is termed the Jumma bundy.

The first step in this process of record is the inspection of all the lands; to see that their boundaries are duly maintained; that they are occupied by the parties in whose names they are entered, or their representatives; or whether, if unoccupied, anything can be got from them by the sale of grass or otherwise. Forms 2, 3, and 4 are the result of this inspection.

With the information thus acquired, and the Register (No. 1), the Accountant opens the Ledger (No. 5), and debits every cultivator with his liabilities as far as they are known at that time of the year. A summary of these liabilities is also drawn up as the Rent Roll (No. 6), with additional columns, in which their recovery and that of subsequent demands is traced to the end of the year.

Next in order comes the preparation of the General Abstract of Lands and Revenues (No. 10), which is the document up to which all others tend, and on which the approval of the authority entrusted with the Jumma bundy is recorded. As this document must account for lands from which no revenue is derivable, owing to their being alienated, and such alienations require careful scrutiny, a detailed Register of them (No. 9) is also framed from No. 1 for comparison with its totals. A Statement of Increase and Decrease as compared with the previous year (No. 7) for the information of the same officer, and a Statement of Disputed Cases of difficulty

(No. 8) for his decision, complete what are ordinarily termed the Jumma-bundy papers.

The annual demands being thus authoritatively settled, the next point is their due collection and acknowledgment, whence arise the Day Book (No. 11) and the Ryot's Receipt Book (No. 12). In practice, however, collections "on account" often commence before it has been found convenient to complete the formal Jumma-bundy. The collections are of course posted in the Ledger (No. 5).

* The various accounts and statements above enumerated are carried on, as occasion requires, until the end of the year, when those of them which are open are closed in the manner shown in the respective forms.

Independently of the duties of the Village Accountant as a collector of the revenues of Government (and Local Funds), and a recorder and guardian of its rights, he acts to some extent as a Registrar of General Statistics, which are communicated to the Mamlutdar, and eventually reach the Sanitary, Educational, Irrigational, or other special departments within whose province they lie. Forms 13 to 16 are kept for these purposes.

The mode in which the Accountant corresponds with his superiors, and preserves papers of various kinds, is prescribed in Forms 17 and 18, which will sufficiently explain themselves.

The examination and test of village accounts and papers is obviously a subject of primary importance, both for the security of Government and the protection of the Ryots: and the standing orders relating to it are numerous and stringent. The duty of supervising the village establishments is, in the first instance, entrusted to certain Carpoons on the Mamlutdar's establishment, termed "general duty Carpoons," who, in addition to assisting in the correspondence and conducting special inquiries which may be entrusted to them, have each the distinct charge of a certain number of villages, in which it is their duty "to see that the accounts are properly kept; that the Ryots have their receipt books punctually written up; that the cultivation returns are carefully made out; that the boundary marks are kept in proper repair; and, in short,

Examination of Village Papers.

that the multifarious duties which are inseparable from a system by which each individual ryot pays his rent direct to the State are duly performed." Further, the Mamlutdar is required to take tests of the work of the Village Accountants, and to subject their papers to rigid scrutiny, especially at the time of the Jumma-bundy and at the close of the year. Assistant and Deputy Collectors are required to remain "at least seven months of the year" in their districts, and during that time to visit thoroughly every Talooka in their charge, and to remain at least a fortnight at every Mamlutdar's station, and a week at every Mahalkuree's, with the view of their systematically reviewing every branch of the revenue administration. And Collectors, finally, are with the same object directed to do in yearly person the Jumma-bundy of one Talooka of those in charge of each of their Assistants and Deputies, a different one being selected each year.*

Regarding the method in which village papers should be tested and examined, it is impossible to lay down fixed rules. Various ways of ascertaining that all is as it should be will continually suggest themselves to every intelligent officer, according to the increase of his experience and the peculiarities of the different localities where he may have to serve. The following points, however, may be mentioned as some amongst many to which it would be well to direct special attention :—

1. Have the accounts of the past year been properly examined by those to whom the duty belonged, and with what result? Were the receipts compared with the Talooka credits at the end of the year, and were all items of demand subsequent to the Jumma-bundy duly brought to account?

2. Do all the accounts of the past and present years balance and tally with each other where necessary? Thus it may be seen whether No. 3 agrees with Nos. 1 and 2; whether debits in No. 5 agree with details in No. 3; whether No. 6 corresponds with No. 5 (items being selected at random); whether No. 7 tallies with the Razeenamas and Kabooliyuts in No. 18; whether the orders in No. 8 have been acted on; whether No. 10 tallies with

* In Broach, the Collector should do annually the Jumma-bundy of one Talooka, and in the other Gujerat Collectorates, of two Talookas.

Nos. 1, 2, 3, 6, 7, and 9, in the portions relating to them respectively; whether in No. 11 the annual total of cash entries corresponds with the total remittances in the Government and Local Fund Accounts in No. 5, and with column 26 of No. 6, *plus* people's contributions; as also whether the direct adjustments agree with those in the Government Account of No. 5 and with column 13 of No. 9; and the grand total of all transactions, *minus* overcollections, equals that of the Government, Local Funds, and Village Expenses Accounts in No. 5, &c., &c.

3. Have transfers been duly recorded in Nos. 1 and 3, and do they correspond with the Razeenamas and Kabooliyuts? Have transfers been recorded in No. 9, and on proper authority, and are life-holders still alive?

4. Has land been unauthorisedly appropriated from waste (*vide* Nos. 2, 3, and 10), or from fields set aside for public purposes under Section 32 of Bombay Act I. 1865? Has land on which a fine was imposed under Section 33 or 39 of that Act been duly vacated?

5. Has the Patel duly paid to the proper persons sums falling under the head of Village Expenses in No. 5, and taken their receipts?

6. Have any leases for terms of years expired, or have lands subject to full assessment under certain circumstances been treated accordingly?

7. Have the instalments been entered in No. 6 according to the rules, and are collections made accordingly? (G. Rs. Nos. 3613, August 23rd, 1865, and 2470, July 7th, 1866, N. R. H., pp. 116 and 117, R. C. page 313.) Do Government demands have a preference over private attachments (R. C., p. 492.)?

8. Are the proper stamps used for transfer and other documents? (Survey Rule XIII., and G. Rs. No. 1819, May 5th, 1869, and No. 4666, September 29th, 1870, N. R. H., p. 112.)

9. Are the village maps and the records in good preservation, and are the latter sent to the Talooka at the prescribed periods? Are all the accounts and returns, especially Nos. 5, 11, 12, and 14, punctually written up at the time? Are remittances promptly made? (R. C., pp. 169 and 170.)

10. Has any village service land been alienated, and is proper service rendered? Are sales of it by Civil Courts duly opposed? (G. R. No. 221, January 18th, 1869, N. R. H., p. 365.)

11. Is Section 35 of Bombay Act I., 1865, duly attended to, especially as regards the sale of sand, stones, &c., and the making of brick-kilns and quarries? (G. Rs. Nos. 4507, November 1st, 1865, and 4405, December 14th, 1867, N. R. H., pp. 123 to 127, and 525.)

12. Are auction sales conducted regularly, after sufficient publicity, and by authorised persons; and are the deposits, and the full amount on sanction, promptly recovered? Are sales of occupancy, whether of waste land or in default of payment of land revenue, conducted according to standing orders? (G. Rs. Nos. 595, May 20th, 1867; 1164, April 4th, 1866; and 309, January 23rd, 1867; as also Rule XVI. of the Rules under Section 28 of Bombay Act I. 1865 as amended by G. Rs. No. 4544, October 21st, 1869, No. 5177, November 26th, 1869, and No. 4953, October 4th, 1872, N. R. H., pp. 109 to 113.) Are Revenue defaulters dealt with according to the standing orders of Government? (G. R. 2292, June 10th, 1868, N. R. H., pp. 133, 134.)

13. Are Survey Numbers subdivided according to law and the Rules published by Government? (G. R. No. 4297, October 6th, 1869, N. R. H. p., 115.)

14. Is the Local Fund Cess levied on the full Survey or Kumal assessment of all lands except those of useful village officers, and on all miscellaneous items of revenue (G. R. No. 4258, October 4th, 1869); and are no proceeds of sale of land, &c., unauthorisedly credited to it?

15. Do Government servants of all grades conform to the regulations regarding not purchasing or taking up land, or engaging in trade within their official ranges? (R. C., p. 347, N. R. H., pp. 21, 29, 82, 83, 93, and 355.) Are the securities of the Patel and Accountant alive, and worth the amounts for which they have become responsible? (G. R. No. 583, February 13th, 1865.)

16. Are the records generally kept up to date, and in a businesslike and neat manner? Is every page of the Account Books stamped with the Talooka seal, and does the number of pages correspond with the endorsement at the end?

The Talooka Kutcherry Record-room is the ultimate destination of all village records, but some are, for various obvious reasons, required to be kept longer at the village than others. No. 1 is to be kept by the Accountant, until, on the introduction of the Survey Settlement, or of a revision of it, a new book in the same form is supplied by the Survey Department. No. 3 is to be kept by him for six years, and sent in at the beginning of the seventh. No. 5 is to be written once in detail, and that copy kept for five years, the Ledgers of the subsequent four years being sent in after two years each. No. 9 is to be kept for ten years. All the other accounts are to be sent in after two years, that is, at the expiration of one full year subsequent to that to which they relate.

The village accounts are kept at the Talooka in separate cloths or bundles for each Village Accountant's charge and each year. A general catalogue of them is kept in the form used for other records. Nos. 1, 3, 5, 6, 8, 9, 10, 17, and Files A and B of 18, are kept permanently; the rest are destroyed in the presence of the Assistant or Deputy Collector in charge of the Talooka two years after receipt in the Kutcherry, with the exception of Nos. 13 and 14 which are destroyed after one year, and File C of No. 18, which is kept for five years; a list of the papers so destroyed, attested by whom, being permanently preserved. Certain documents to be specially preserved, or otherwise, are described in Government Resolution No. 1310, of March 18th, 1871 and accompanying lists.

Department, and corrected from time to time under proper authority by the village officers, of 1865 (*vide* page 110 of Nairne's Revenue Handbook).

REMARKS ON FORM No. 1.

1. This Register is the foundation of all Land Revenue accounts. It is originally framed by the Survey Department, and supplied to each village at the time of the introduction of the Survey Settlement, a duplicate being retained in the Survey records. No change is to be made in it until the expiration of the thirty years' Settlement, excepting to record transfers of ownership or occupancy in columns 18 and 19, or of miscellaneous rights in column 20, to sub-divide numbers or shares of numbers under Rule 2, Clause 1, Section 1 of Bombay Act. IV. of 1868, or to correct errors under the orders of the Superintendent of Survey or Collector. In Talookas where the Survey has not yet been introduced, the Register of lands must for the time be retained in the old form.

2. Alienated land will be described in column 3 according to its tenure if held for service, as for Talooka, village Government, or village community service ; if held under a Settlement, as "Sunudee" under the Summary Settlement, Wuttun Settlement, or as the case may be.

3. Columns 3 to 5 will be filled in with reference to the entire number only. Columns 6 to 17 will show separately all sub-shares which have been recognized by the Survey Department, and designated by subordinate numbers.

4. Column 13 will show water rates which have been fixed distinct from the land assessment. Column 16 will show all quit-rents, whether Sulamee, Jodee, Summary Settlement, or otherwise designated.

5. The record of transfers in columns 18 and 19 should be written and signed by the Tulatee or Koolkurnee on receipt of authority from the Mamlutdar. Space for such transfers will be left between successive numbers, but if the Register should become filled, a supplement, containing only columns 1 to 3 and 18 to 20, may be kept. The Mamlutdar is empowered to direct the entry of transfers and of the names of heirs of deceased holders, but should report for orders any cases which, from the number of claimants, difficulty of establishing heirship, or other intricacy, he feels should be decided by higher authority.

6. Column 20 will contain notes as to what rights in wells, houses, date, teak, or fruit trees, &c., have been reserved to Government, or are the property of the occupant. Should reserved rights be afterwards sold, the Tulatee or Koolkurnee will make an endorsement to that effect on receiving authority from the Mamlutdar.

REMARKS ON FORM No. 2.

1. In the month of July or August, when cultivation has generally commenced, the Tulatee or Koolkurnee is to inspect all the lands of the village, in order to ascertain both that no fields not formally taken up have been cultivated with the fraudulent intention of escaping payment, and what grazing may be put up for auction.

2. The result of the inspection having been compared with the relinquishments of occupancy and cultivation returns of the previous years, the first four columns of the Statement should be filled in, and it should be forwarded to the Mamlutdar, who at the time prescribed by the Collector will either authorize the Tulatee, or send a Carkoon, or even come himself if necessary, to sell the grazing or other produce by auction under Survey Rules XI. and XII. Where fields have no grazing or other produce for sale, the cause should be entered. Unculturable waste producing grass should also be here accounted for.

3. When the auction has been held, the signature of the highest bidder should be taken in column 7, and columns 5, 6, and 8 should be filled in, and the Mamlutdar's sanction or further order obtained in column 9. In the event of a second sale being ordered, the new figures should be entered below the old ones.

4. This Statement should be kept at hand at the time of the preparation of the Statement of general inspection (No. 3), and compared with it.

Mamlutdar _____

REMARKS ON FORM No. 3.

1. As this form is intended to last for five years, sufficient space for changes in the names of holders should be left between each entry. When the payments are made by sub-tenants or managers their names also should be inserted in column 4.

2. This form is to be filled in as far as column 6 once for all. The columns for crops and the proportions of each in a field, where there is more than one (which are to be entered in annas), as also those for the Tulatee's inspection of boundary marks, are to be filled in at a complete inspection to be made in November or December.

3. The columns for Talooka inspection will be filled in by the Carkoon deputed by the Mamlutdar to examine the boundary marks of the village.

4. Tulatees are required to examine all the boundary marks once a year. The Talooka "general duty" Carkoon to whom the village is assigned is also to examine all annually for the first three years after the introduction of the Survey Settlement, and biennially afterwards. Mamlutdars and Assistant or Deputy Collectors are required to test a certain per centage of numbers in several villages of each Talooka, and the Collector's Dufterdar or other officer deputed by him will also take tests. The results of such tests should be entered opposite each number below the Talooka Carkoon's inspection.

5. The authentications by the village and Talooka authorities are to be written annually below the proper columns.

VILLAGE FORM No. 4.

REGISTER of Boundary Marks out of repair in the Village of Taluka Zilla in 1870-71.

REMARKS ON FORM No. 4.

1. The annual inspection of boundary marks, with the necessary checks on it, has been provided for in Form 3, but, in order to ensure that the inspection shall produce practical results, this statement must also be kept, as prescribed in Appendix B to the Revised Survey Rules.

2. Columns 1 to 6 and 12 to 14 are to be filled in by the Tulatee or Koolkurnee, at the same time that he makes the inspection recorded in Form 3, with the particulars of all boundary marks found out of repair.

3. In the case of boundary marks in Government unoccupied waste numbers, for which column 14 is intended, the Tulatee will report to the Mamlutdar, and with his sanction effect the repairs by hired labour. In all other cases he will require the repairs to be effected according to law.

4. After the lapse of a sufficient time to allow of the repairs to the marks being completed, a second inspection should be made of every field entered in this Register and the provisions of the Act should be rigidly enforced in all cases where the repairs have remained unexecuted.

5. This Register should be specially attended to by the various inspecting officers. Its results are used in framing the Taluka Form No. 33. If an inspecting officer finds other marks out of repair in addition to those noted by the Tulatee or Koolkurnee, he should enter them in columns 1 to 6 and 12 to 14, to be dealt with like the rest.

REMARKS ON FORM No. 4.

1. The annual inspection of boundary marks, with the necessary checks on it, has been provided for in Form 3, but, in order to ensure that the inspection shall produce practical results, this statement must also be kept, as prescribed in Appendix B to the Revised Survey Rules.

2. Columns 1 to 6 and 12 to 14 are to be filled in by the Tulatee or Koolkurnee, at the same time that he makes the inspection recorded in Form 3, with the particulars of all boundary marks found out of repair.

3. In the case of boundary marks in Government unoccupied waste numbers, for which column 14 is intended, the Tulatee will report to the Mamlutdar, and with his sanction effect the repairs by hired labour. In all other cases he will require the repairs to be effected according to law.

4. After the lapse of a sufficient time to allow of the repairs to the marks being completed, a second inspection should be made of every field entered in this Register and the provisions of the Act should be rigidly enforced in all cases where the repairs have remained unexecuted.

5. This Register should be specially attended to by the various inspecting officers. Its results are used in framing the Taluka Form No. 33. If an inspecting officer finds other marks out of repair in addition to those noted by the Tulatee or Koolkurnee, he should enter them in columns 1 to 6 and 12 to 14, to be dealt with like the rest.

REMARKS ON FORM No. 5.

1. The Statements of Government waste lands and of Inspections (Nos. 2 and 3) having been prepared, the Village Accountant possesses in them, together with the Register of Lands (No. 1), the means of ascertaining in all, except special cases, the amount to be levied from every cultivator during the current year.

2. He should, therefore, next prepare this Ledger as far as may be practicable. The Ledger opens with the Government (or Stock) Account and the Local Funds Account, in which over-collections to be repaid should be debited and outstanding balances for recovery credited, corresponding entries being made in the accounts of the Ryots concerned, which should follow in due course. As farms are sometimes numerous, all may be put into one account. The other accounts will explain themselves.

3. When a Ryot's holding is in no respect different from what it was in the past year, only the total amount due need ordinarily be entered, provided that full details be given once in five years.

4. If the Village Accountant is in doubt about any item in a holding, he should report to the Mamlutdar, and enter, as due, in the Ledger, the Rent-Roll, and other papers, whatever amount he may fix. If the item should be ordered to be entered in the Statement of Disputed Cases (No. 8), and the Officer making the Jumma-bundy should pass a decision different from the Mamlutdar's, the difference should be added to or deducted from the several papers. Collections should be credited whenever they take place.

5. If any new item of revenue should arise after the Jumma-bundy Settlement, such as for concealed or hot weather temporary cultivation, it may be added separately below the others before the papers are closed.

6. The Ledger should be closed immediately after the expiration of the Revenue year on July 31st, by carrying to the proper side of the Balance Account all sums due by or to Government, and carrying the difference to the Government and Local Funds Accounts respectively.

REMARKS ON FORM No. 6.

1. When the village accountant has opened the ledger, by entering what is due from each ryot as far as practicable, he should proceed to prepare this rent roll, the object of which is to collect into totals, under the several heads, the amounts due from all the individual ryots, to keep a watch on their collection, and finally to record balances outstanding and over collections if any.

2. The first thirteen columns of the statement, as also columns 29 to 32, which are to be deduced from them, should be filled in as soon as the ledger has been opened, and in no case later than fifteen days before the date of the first instalment. At the same time the Accountant should report to the Mamlutdar the totals of columns 29 to 32, that he may frame from them his first monthly return of demands and collections for transmission to the Collector. If any Inams come under attachment, an extra column should be inserted between columns 10 and 11.

3. Should any items of additional revenue and demand arise after this, and previous to the preparation of the Jumma bundy papers, they may be added in columns 11 to 13. At the preparation of the papers, columns 14 and 15, as also the foot totals of 11 and 13 should be made up. Items arising subsequent to the preparation of the papers will go in columns 17 to 20, and the totals at the foot of the proper columns of demands, as shown in the form.

4. The remaining columns of the statement should be filled in at the end of the revenue year from the ledger. If the balances in columns 27 and 28 be on other accounts than Land Revenue, an explanatory note may be put in the column of remarks.

REMARKS ON FORM No. 7.

1. In order to facilitate a proper supervision over the village accountant's books, to prevent fraudulent entries of decrease, and to furnish the information as to the causes of increase and decrease which is required by superior authority, this statement is prepared from the Ledger at the same time as the Rent-roll.

2. All holdings in which there has been any alteration should be entered separately in detail. The total amount of all the remaining unaltered holdings should be added at the foot of columns 3 and 14, so that the grand total may tally with that of Forms Nos. 6 and 10.

3. Extra items arising after the preparation of the papers must be added at the foot, as in Form No. 6.

4. Local Fund is not included in this statement, because it is simply a proportion of and dependent on the Land and Sayer revenue, whatever that may be fixed to be.

VILLAGE FORM No. 8.

Statement of Disputed Cases of Mouze _____ Talooka _____ Zilla _____
A.D. 1870-71.

Number.	Name of the Individual and Description.	Area.	Assessment.	Remarks by the Mamlutdar.	Remarks by the Officer making the Jummabundy Settlement.
1	2	3	4	5	6
1	Madhow Govind refuses to pay the assessment on his holding, on account of his crops having been destroyed by locusts.	14	70	On enquiry, it appears that the cultivator has incurred a heavy loss, and therefore it is necessary to remit a portion of the assessment.	Rs. 40 should be remitted and the rest realized. The Local Fund should also not be levied on the amount remitted. (Signed) Assistant Collector.
2	It having been found in the course of the Tulatee's inspection that Madhow Govind has unauthorizedly occupied waste land No. 13, measuring one acre, and assessed at R. one, what assessment should be levied from him?	1	1	The full assessment, and four times as much in addition as fine, should be levied. (Signed) Mamlutdar.	The Mamlutdar's recommendation may be acted on. (Signed) Assistant Collector.

REMARKS ON FORM No. 8.

1. Cases often arise in which it is doubtful what amount should be levied or whether remission should be granted, or whether a penalty should be imposed. The more important of such cases are usually settled when they arise by correspondence of the Mamlutdar with his superiors, but minor ones are reserved for settlement at the time of the Jummabundy. All such reserved cases should be entered in this statement. The village accountant will fill in the first four columns, giving the facts, the Mamlutdar will add his opinion in Column 5, and the officer doing the Jummabundy will give his final order in Column 6.

2. It has already been explained (*vide* Form 5), that the whole of the papers are to be prepared previous to the Jummabundy, in accordance with the opinion given by the Mamlutdar, and that should the final orders given in this statement be different, the necessary corrections are to be made throughout at the foot of the different statements.

REMARKS ON FORM No. 9.

1. The rent-roll affords the details of the Government land held by the ryots, and any quit-rents due from them for alienated land are entered in Column 10 of that form, in a lump sum extracted from the ledger. But it is sometimes necessary to know the details of all the alienated land held by individuals, including that on which they pay no quit-rent at all.

2. This statement is therefore prepared from the Register of Lands (No. 1) and compared, as regards quit-rents, with the ledger and rent-roll.

3. Until Sunnuds have been issued for all the various descriptions of alienated land, this statement should be prepared annually. In special cases, where only a very few Sunnuds may remain unissued and delay is anticipated, the Collector may direct that all the lands for which Sunnuds have been issued shall be shown in the lump only, pending the issue of the remaining Sunnuds. The first annual statement which is complete in all respects may be preserved without renewal for ten years, transfers and modifications being recorded in the column of remarks.

4. When the Survey Settlement is introduced into a Talooka, this statement must be prepared afresh.

5. Each denomination of village servants useful to Government should be distinguished as hereditary or stipendiary, and as belonging to the Revenue or Police branch, as the case may be, in order that the corresponding totals may be inserted in Village Form No. 10, and thence carried on into Talooka Form No. 26 and Huzoor Form No. 3.

REMARKS ON FORM No. 10.

1. The whole of the annual detailed papers having been prepared, they are summarised in this general abstract, which is signed by the officer in charge of the Talooka at the time of the Jummabundy.

2. It is scarcely necessary to say that the whole of the papers and this abstract must be thoroughly examined, first by the Mamlutdar, and afterwards by the Assistant or Deputy Collector doing the Jummabundy, and this abstract authenticated by the signature of each.

3. On the completion of the Jummabundy, which, by the order of Government, must be effected before March 15th, the village accountant must send this abstract to the Mamlutdar, who will make from it the Talooka Form No. 26, and return it to the village.

4. When the revenue year expires, the accountant should at once add all additional items of whatever kind, make the final totals, and on July 26th should re-transmit the statement to the Mamlutdar, who will from it fill in the Talooka Revenue Summary (Talooka No. 27), and after affixing his signature, will return it to the village for record.

REMARKS ON FORM No. 11.

1. This Form is placed subsequent to the General Abstract of Lands and Revenues, because in theory the receipts and debits, which are to be recorded in it day by day, and thence carried to the ledger, do not commence until the amounts to be levied have been fixed by competent authority. In practice, however, certain items, such as sale proceeds of grass and recoveries of revenues of past years, often begin to come in during the monsoon, or before the inspections are completed, and sometimes even one or more instalments have been collected before it is possible to do the Jumma-bund.

2. In this Form all unnecessary adjustment entries, such as the Jumma-bund Settlement, have been omitted, and only such retained as cannot be posted into the Ledger direct from any of the other Forms. When village expenses are entirely paid direct from the Talooka, and not through the Patel, they need not be passed through this Day Book, if it be desired to save the trouble of entering them ; but in such a case their retention in the village expenses account of the Ledger seems desirable.

(Signed) Examining Officer.

* Under recent orders the cess is not levied on fines imposed under the Survey Act.

REMARKS ON FORM No. 12.

1. The debit side of this receipt book is copied from the ledger, and should be written up at the same time as that book, or immediately afterwards, that each ryot may know in good time what he has to pay. Items of additional revenue should be added whenever they arise.

2. The credit side entries must each be written up and signed at the time the payments are received.

3. The orders of Government regarding the examination of these receipt books, by comparison with the ledger and the *vivâ voce* statements of ryots as to how much they have paid, are most stringent. Such examinations should be made by Assistants and Deputies during their tours without previous warning, and sometimes at villages distant from their camps. Soon after the payment of an instalment is the most favourable time to choose. The talooka general duty Carkoons are required to examine these books together with the other accounts, and the Mamlutdar or 1st Carkoon also must test a certain percentage.

4. An examining officer should sign each receipt book which he examines and should also make a memorandum at the end of No. 5, stating (by their numbers) which ledger accounts he has verified.

REMARKS ON FORM No. 13.

This form should be filled in by the village accountant with the assistance of the Patel, at the close of each year ; that is, about July 31st, unless there should on any occasion be special instructions for a different date, as that is the time when all classes are usually found at their homes. The form so filled in belongs to the records of the year just expiring, and may be tested by No. 14 of that year—*e.g.*, a census taken on July 31st 1870, belongs to the year 1869-70, and not to 1870-71.

2. Houses constructed of stone or burnt bricks, with tiled, choonamed, or iron roofs, should be classed as houses of the better sort ; houses whose outer walls are of mud, sun-burnt bricks or planking, whatever the description of roof, should be considered as of the inferior sort ; houses with sides of bamboos, reeds, grass, or similar materials, will be termed of the worst sort. The two latter classes together correspond with the second of the classes prescribed for the Imperial census of 1871. Children are to be entered as such till they have completed their eighteenth year.

3. In districts in which any particular species of animals which is not shown in this form—such as camels or mules—may be numerous, extra columns may be inserted for them, with the sanction of the proper authority.

4. The totals of this form with the comparison with the previous year, excess and decrease, should be extracted and forwarded to the Mamlutdar by August 10th.

5. The columns of “under instruction” are intended for such children only as attend a school or college, or are under private tuition. Children under instruction should be considered as “able to read or write.”

6. The village officers are required to keep for the Vaccination department a register in the following form :—

No.	Child's name.	Father's name, surname and place of residence.	Caste.	Sex.		Age.		Date of Vaccination.	Signature of Vaccinator.
				Male.	Female.	Above one year.	Under one year.		

This should be filled in, as the vaccinator conducts his operations, by the Patel or accountant, or by the vaccinator if the latter be absent and the former cannot write. In either case, the vaccinator must sign it at the same time in the last column. An extract of the totals should be sent monthly by the village officers to the Mamlutdar for transmission to the Divisional Superintendent of Vaccination.

VILLAGE FORM No. 14.

Register of Births and Deaths in the Village of Talooka Zilla A.D. 1870-71.

DEATHS.

REMARKS ON FORM No. 14.

This Form is to be punctually filled in by the Police Patel of the village, or, if he cannot write, by the village accountant or other competent person, under his instructions.

2. The monthly abstract is to be drawn up by the accountant, and forwarded punctually to the Mamlutdar at the beginning of the month.

3. No causes of death should be entered in column 6 of this form, except those contained in the monthly abstract. The remarks on vaccination in column 9 are to relate solely to the four heads given in columns 25 to 32 of the abstract. All castes are to be given in detail in column 4 of the form, but they are to be reduced in the abstract to the general heads there shown.

4. Infants born dead must appear in both the births and the deaths' side of this form, and in both column 87 or 88 and column 110 or 111 of the abstract.

REMARKS ON FORM No. 16.

This form is intended to supply certain information for the Collector's Jumma-bund Report to the Revenue Commissioner, and also most of the materials for the Irrigation Returns required by the Government of India.

2. The greater portion of this return will be filled in at the same time as the Inspection Returns (Nos. 2, 3, and 4). Later crops should be added when they are ripe. Land which is cropped twice in the year or oftener will of course be repeated, but the excess area must be afterwards carefully deducted in column 29. As many cultivation-columns should be made as there are kinds of crops.

3. At the close of the year (July 31st), the Accountant should fill in the columns subsequent to those for cultivation (*i.e.*, columns 29 to 41 in *this* illustration), cast up the totals and frame the abstracts at the foot, and send a copy of totals and abstracts to the Mamlutdar.

4. When there may happen to be a special water-rate levied over and above the Land Revenue assessment, an additional column headed "Public Works Revenue from Irrigation" should be added between columns 36 and 37, and the total amount shown in the details at foot. A similar addition must be made in all the previous papers containing demands.

5. This form, and those derived from it up to the Huzoor, are not intended to embrace alinated lands.

VILLAGE FORM No. 17.

Inward and Outward Correspondence Register *Village* *Talooka* *Zilla* 1870-71.

84

Village Number.	From whom received or to whom written.	Number and date of Inward papers.	Substance of Inward papers.	Copy of Outward papers.	Reference to subsequent correspondence, if any.	File in which recorded.
1	2	3	4	5	6	7
1	Report to the Mamlutdar of Mandvee.	To Mamlutdar Sahab— Narun Shunker has encroached on assessed unoccupied land. I request that a Carcoon be deputed and Assessment ordered to be levied. Despatched 5th August 1870.	Current year below No. 2.	
2	Mamlutdar's endorsement on Gunput Nuthoo's Petition.	8th August 1870, No. 55.	Received 9th August 1870, calling for report as to whether the land from which Petitioner wants to remove earth is assessed land.	To Mamlutdar Sahab— The land which the Petitioner applies for is unassessed waste land. Despatched 10th August 1870.	
No. 1 of current year.	Mamlutdar Sahab's endorsement below Report.	25th August.	Received 26th August 1870, ordering that five times the Assessment on the whole number partly encroached upon by Narun Shunker should be levied till he relinquishes it.	Reply— Five times the Assessment has been levied as desired. Despatched 26th August 1870.	
3	From the Mamlutdar Sahab.	25th August, No. 56.	Received 25th August 1870, Regarding the amount of the Local Fund Cess to be levied and the parties from whom it is leviable.	Copy of the Circular taken and placed on the file. The original forwarded to the Talatee of Pali. Despatched 26th August 1870.	Circular.

REMARKS ON FORM No. 17.

This form will mostly explain itself. Both Inward and Outward papers of all kinds are registered in it, and replies are written opposite the registry of the papers calling for them respectively. The Accountant has one current number which he gives to all papers in succession. When a paper or correspondence comes back a second time it is still designated by its original number. The file in which papers to be retained are put away is shown at the last.

2. When an Accountant makes a remittance to the Talooka Treasury, he should send with it a report, to be registered in this form, in which the nature of the receipts composing the remittance is made should be specified. The receipt which comes to him from the Talooka should be filed in the Miscellaneous file (Form 18C), and quoted in the credit entry in the Day Book.

3. The Accountant, whenever he sends notices for defaulters to the Mamlutdar for sanction and signature, should append to his report a list of them in the subjoined form :—

No.	Name.	Amount due.	Date of Notice.	Date of Service.	Date of Payment.	REMARKS.
1	2	3	4	5	6	7

The first three columns will be filled in by the Tullati at the first, the fourth by the Mamlutdar, the 5th and 6th by the Accountant. If a man should pay before the notice reaches him, column 5 will be blank, and the notice should be cancelled in column 7 by the Mamlutdar, to whom the list should be sent for information before it is filed by the Accountant.

4. A similar course should be pursued regarding sales of fruit, dry wood, and other items of Miscellaneous Land Revenue, the list specifying the nature of item and the amount to be recovered. The Mamlutdar will append his sanction, with the date thereof.

REMARKS ON FORM No. 18.

The documents which pass through an Accountant's hands are usually of three kinds—(1) circulars, which he requires to keep constantly by him for guidance; (2) razeenamas, kuboolyats, and transfers, which are deeds conveying title, and therefore of permanent value, but which are rarely required in the village after the current year, and therefore go to the Talooka record room after the usual time; (3) miscellaneous reports of ephemeral interest or value.

2. Three files should be kept by the Accountant, in which the above three kinds of papers should be filed on receipt, the fact being noted in column 7 of Form No. 17. Three indexes, in the Forms A, B, and C given under this number, should also be punctually written up.

3. When the razeenamas, &c., have been tested by the Mamlutdar at the time of the Jumma bundy, by comparison with both the other village forms and the register of such documents at the Talooka Kutcherry (Talooka No. 31), the Mamlutdar should countersign Index B.

4. At the expiration of one year subsequent to that to which they relate the file of razeenamas, &c., and the miscellaneous file, with their Indexes, should be sent to the Talooka record-room, but the Circulars file should be retained for current use for at least some years, or until the orders it contains have become obsolete. The two files sent to the kutcherry are usually permanently preserved, but there is no objection to the destruction under proper sanction of the miscellaneous papers in accordance with the orders quoted at page 7.

PART II.

TALOOKA ACCOUNTS.

PART II.

TALOOKA ACCOUNTS.

INTRODUCTION.

The Revenue accounts of a Talooka may be said to comprise three distinct classes of papers. The first includes all which have an immediate or direct connection with the receipt, payment, or adjustment of cash; the second consists of tabular statements, framed with the view of ascertaining and elucidating the Talooka Jummabundy, or Government demand, and watching its realisation; the third is the province of general statistics concerning the wealth and resources of the Talooka, the definition of properties, the agency of Government for collecting its dues, *etc.*

2. Under the first of these classes the principle is that the accounts are unclassified,—that is, transactions are merely described in plain language,—and it is left to the account department, at the Collector's Huzoor, to decide under which technical head of account each item must be ranged in order. There is, consequently, no general Talooka Ledger, but only a Talooka Day Book—the one great record into which all transactions are eventually brought, and from which they are communicated to the Huzoor.

3. The transactions of a Talooka are, however, so extensive, and the number of the same kind in one day is sometimes so considerable, that if all were brought individually into the Day Book, it would become so cumbrous and involved as to make the prompt extraction of the day's results for transmission to the Huzoor, or any efficient control over heads of charge and receipt, an impossibility. Each head of importance has, therefore, a separate register of its own, usually in a tabular form, in which every individual item is shown, but from which only the day's totals are every evening transferred to the Day Book. These registers may, therefore, be termed "expansions" of the Day Book.

4. These expansions will be observed to be of three kinds. The first, comprising Forms 2 to 7, relate principally to receipts, from some of which, however, refunds occur; the second, Forms 8 to 15, are payments, a portion of which is occasionally recredited;

the third, Forms 16 to 18, are Stock accounts of certain articles kept for sale, with the issues of them in return for cash and the disposal of the same. In cases where Regulations and Acts or other books are supplied for sale, an additional Stock account of a simple nature must be kept for them, but it has not been thought necessary to prescribe any special form.

5. It has been stated above that there is no Talooka Ledger because there are no classified accounts. There are, however, a few individual heads of account, namely, Revenue, and Village, Talooka, and miscellaneous fixed allowances, which are of so important a nature, that Ledgers of them individually (Forms 19 to 22) are indispensable, in order to ensure demands being recovered, arrears duly paid, &c. These ledgers are merely ancillary to the "expansions" to which they respectively relate (Nos. 2, 10, 11, and 12,) and have no connection with the Day Book.

6. The only remaining Forms belonging to the first class are Nos. 24 and 25, which may be said to be subordinate to No. 17, since they relate to a stamp vendor's disposal of the stamped paper which he has received as recorded in that Form.

7. In the second class, the first paper is the Summary of village revenues (No. 27), which is compiled from the
 Class II. General Abstracts of Lands and Revenues of all the villages in the Talooka (Village Form No. 10). In order to test the alienations shown in it, and bring to light any unauthorised charges, the Alienation Register (No. 26) is prepared. From No. 27 thus verified, and in part from No. 19 and 26 also, is next framed the Jumma bundy Talebund, No. 28, or general abstract of the whole lands of the Talooka, how they are held and what is due to Government for them. This is to the Talooka what the Village Form No. 10 is to the village. Finally, any remissions which it may have been found necessary to make, and any balances outstanding at the end of the year, are shown in detail in Forms 29 and 30, with the reasons in each case.

8. The third class has in this work been illustrated by only three
 Class III. Forms. The first has for its object the control of the cost of the revenue collecting and administering establishments as compared with the cash proceeds ;

the second, the maintenance of the great system of definition of property by boundary marks ; and the third, the recording of the progress of the Talooka in respect of population and resources under the influence of British rule.

9. The following synopsis may be an assistance in comprehending the above explanation of the various accounts :—

Class I.	Receipts.	1	Talooka Day Book.
		2	Detailed Revenue Receipt Book.
		3	Forest Collections Book.
		4	Income Tax Collections Book. (<i>In abeyance</i>).
		5	Day Book of Fees for copies under Act VIII., 1871.
		6	Deposit Register, Revenue.
		7	Ditto Judicial.
	Payments.	8	Talooka Pay Abstract.
		9	Village Pay Abstract.
		10	Village Servants and Expenses Book.
		11	Talooka Officers' Allowances Book.
		12	Miscellaneous Allowances Book.
		13	Permanent Revenue and Magisterial Advances Book.
		14	Daily Detail Book of Magisterial Expenses.
		15	Tuccavee Advances Book.
	Stock Accounts.	16	Opium, Day Book of Sales.
		17	Stamped Paper, Day Book of Sales.
		18	Stamps, Day Book of Sales.
	Ledgers.	19	Annual Abstract of Talooka Revenue Demands, Payments, and Balances.
		20	Ledger (or Peta Khatawahee) of Village Allowances.
		21	Ditto of Talooka Officers.
		22	Ditto of Miscellaneous Allowances.
		23 *	Ledger of Advances to Stamp Vendors and repayments.
		24	Stamp-vendor's Day Book of Stamped Paper.
		25	Ditto Issue Book of papers.
Class II.		26	Alienation Register, with increase and decrease.
		27	Mouzawar Terij, or Summary of Village Revenues.
		28	Jummabundy Talebund, or Talooka General Abstract.
		29	Statement of Remissions with reasons.
		30	Ditto of Outstanding Balances of Land and Sayer Revenue and Tuccavee, with reasons.
Class III.		31	Index of Resignations, Leases, Transfers, and Successions.
		32	Statement of Revenue Collecting Establishments.
		33	Ditto of Condition of Boundary Marks.
		34	General Statistical Return of the Talooka.

* This Form is in abeyance under the present system of sales.

10. The above are all which it is considered can strictly come within the designation of Revenue *Accounts*. There are, however, various returns, designed to regulate the revenue administration, which are submitted by the Mamlutdar to the Collector, who compiles them for transmission to the Revenue Commissioner. These will be referred to more particularly when considering the Huzoor Accounts.

11. Moreover, there are certain registers in every Talooka which are kept for independent objects, but may not unfrequently be referred to with advantage for the purpose of checking entries in the cash accounts and Jumma-bundy papers. The Registers of Summary Settlement Sunnuds, of Land and Allowances of Hereditary Officers (Regulation XVI. 1827, Section 19), of rights of Patels and Koolkurneesto serve in rotation (G. R. No. 3014, of August 22nd, 1866, N. R. H., p. 357-9), are among those referred to. It would obviously be beyond the scope of this work to give the forms of these.

12. Again, there are a variety of general returns which the Mamlutdar is occasionally or periodically required to frame from the information received from the village accounts and other sources, and to transmit to the Collector, who compiles them for the Irrigational, Sanitary, or other special Departments. These returns often contain much which may be of use to the thoughtful Revenue Officer, and afford to him, as to the Magistrate, many hints for improvements in the Executive, but their forms are not shown here, as they are at most only germane to the Revenue Department, and are liable to not unfrequent modification by Government, or the heads of the Departments to which they appertain.

13. Finally, it is scarcely necessary to add that such subjects as the Register of Dead Stock, Inward and Outward Correspondence Registers, the elaborate Indexes of the Talooka Record Room, which concern all Departments, and not the Revenue only, and are fully treated of elsewhere, have been considered to have no place here. The subject of Local Fund Expenditure has been omitted as unconnected with Revenue Accounts. Disbursements will appear in

the Day Book, and such special returns will be rendered as may from time to time be prescribed by Government in the Public Works Department.

14. All account books are authenticated by seals stamped on every page, and an endorsement at the end of the book stating the number of stamped pages, with the view of preventing fraudulent abstraction of pages and falsification of the accounts. The only exception to this is in the case of books furnished from Bombay with machine ruled forms and printed paging, which are considered to be sufficiently protected thereby. Forms Nos. 1, 6, and 7 are usually of this description. The remaining books are stamped by the Mamlutdar with the Talooka seal, excepting Forms Nos. 16, 17, 18, 20, 21, and 22, which, in many Collectorates at least, are impressed with the Collector's seal at the Huzoor.

15. The examination of the Talooka accounts is necessarily one of the most important duties of the Assistant or Deputy Collector in charge of the Talooka. The orders of Government are, that he shall spend not less than a fortnight in each season at the Talooka, and a week at the Mahal town of every Talooka in his charge. His examination ought, except where the distances are unusually great, to take place on two occasions, early and late in the season; the first being that of a complete examination, and the second devoted chiefly to ascertaining that all irregularities detected on the first, or immediately, by the Collector or Revenue Commissioner on tour, have been carefully rectified. The Collector is required to visit a fair proportion of his Talookas each year, in such order that no Talooka may be unvisited for two seasons consecutively, and encamping long enough for thorough examination of the accounts and comparison of Huzoor No. III. He is also personally to do the Jumma-bundy of one of the Talookas in each Assistant's charge, except in certain cases (*supra*, page 4).

16. The first step in examination is the treasury, to ascertain whether the balances of (1) cash and notes, (2) stamped papers and stamps, (3) opium, are correct according to the books; (4) whether the standing orders regarding the custody and distribution of Treasure are obeyed.

17. The next step is to ascertain whether the financial books are accurate, that is, whether they tally with each other. Thus, all the "expansions of the Day Book" (Forms Nos. 2 to 18) must tally *in extenso* with the lump entries in the Day Book, and all the petty Ledgers (Forms Nos. 19 to 22) must accord with their respective books (Forms Nos. 2, 10, 11, and 12).

18. After this, the Jumma-bundy papers, as the standard by which the revenue receipts are regulated, must be thoroughly gone into. In this case, as in that of the village accounts, a variety of modes of test will occur to different officers in the course of their experience. Some have been mentioned in this work in the explanations of individual Forms. The examiner will of course see that all the Jumma-bundy papers (Forms 26 to 31) agree with each other. He should also specially test them by the accounts of a few villages selected at random, and by verifying a certain number of the orders quoted as authority for alienations, remissions, auction sales, adjustments, etc.

19. The next step should be to ascertain that the amounts due have been fully and regularly collected, for which purpose the memoranda of instalments sent in by the village Accountants, and their chulans of remittances, should be looked into. Similarly, the miscellaneous receipts, appearing in Forms Nos. 3 to 7, should be tested by chulans, yadees, or other papers transmitting or authorising. The Huzoor Form No. 3 must also be compared with the Talooka accounts, as required by Government, (*infra* page 291). The general receipts, likewise, should be looked into as far as may be practicable in various ways.

20. The disbursements must also be looked into, as to whether pay and batta are correctly charged, under the prescribed certificates, and receipts taken; whether deposits are returned to the right parties; petty magisterial and advance expenses duly authenticated; and, above all, whether the allowances (Forms Nos. 10 to 12 and their corresponding Ledgers Nos. 20 to 22) are correctly and regularly written up, paid at the proper times, subjected, when necessary, to deductions, and struck off when forfeited by lapse of time (Arrears Rules, N. R. H. p. 403-5).

21. The stock accounts also should engage attention, especially to see that false wastage of opium is not entered, or that the discounts on stamps and stamped papers are not in excess of the authorised percentages.

22. Finally, the miscellaneous returns should be tested by comparison with some of the village accounts as well as the extracts or copies sent in by the Tulatees; the general returns referred to in paragraph 12 should be inspected, and intelligent conclusions formed, as to the condition of the Talooka, together with reports to superior authority if desirable.

23. The above remarks completely apply to the accounts of the past year only, and these should always engage the principal share of attention, but the accounts of the current year should always be inspected in a more or less thorough manner, according to the period of the year when the inspecting Officer's visit may occur. In November, there is of course little, but in April or May, much to examine, with advantage in proportion.

24. The Revenue account examination of a Talooka cannot be said to be complete without a scrutiny of the condition of the current revenue correspondence affecting accounts; that is to say, not merely the regularity and promptitude with which account references from the Huzoor are attended to, but also the disposal by the Mamlutdar of all cases affecting assessment, the activity of the village accountants in replying to references on such subjects, and, above all, the completion of Summary Settlements of all kinds, and final determination of all Inams. The difficulties and complications in accounts caused by the protraction of such investigations are too often overlooked, but may be readily traced in the majority of instances.

25. The securities of Mamlutdars, 1st Carkoons, Treasurers, Shroffs, Stamp Vendors, Patels, and Village Accountants are a subject intimately connected with Revenue accounts. A simple register, showing the name of the officer, amount, name and residence of security, and the annual certificates of the solvency of the latter, is kept in every office. The first four officers named above are

entered in the Huzoor register, and the others in those of the Talookas to which they belong, and an annual report is made to the Huzoor in January of each year as to the solvency of each security, an entry of similar purport being made in the Register.

26. In conclusion, Treasuries of Mahalkurees, which exist in some large Talookas, do not correspond direct with the Huzoor, but are subject to their Talooka Treasury, and do not keep separate accounts more than is necessary, or exercise independent authority. The Jumma bundy papers, indeed, are framed separately, and revenue is received direct, but the former are ultimately incorporated in the Talooka papers, and a daily sheet of the latter in the lump, together with disbursements ordered by the Mamlutdar (which alone are admissible), is transmitted for adjustment in the Talooka books.

REMARKS ON FORM No. 1.

1. The Talooka Day Book is kept for the Revenue year, and not for the Financial; that is, from August 1st to July 31st. In order to afford time for the accounts of all Talookas to be made up at the Huzoor by the close of the calendar month, the Day Books of Talookas are closed on the 25th of every month, except February, when they are closed on the 23rd, and March, when the 31st is the closing date. The accounts of the days between the above dates and the end of the month are considered at the Huzoor as belonging to the following month.

2. It has already been explained that all classification of accounts is to be done at the Huzoor. The writer of the Day Book should therefore endeavour to state in column 4, in plain language and few words, the exact nature of each entry, without stating the heading to which he may suppose it to belong.

3. In order to facilitate the daily transfer of the Day Book entries to the Huzoor and the testing of accounts, all unnecessary detail must be avoided; so separate accounts are kept of various heads under which the debits or credits are very numerous, and the daily totals of those accounts, with a general Summary, where indispensable, are alone transferred to the Day Book every afternoon, when the day's transactions are closed. Forms 2 to 18 are separate accounts, or "expansions" of this kind.

4. Similarly, in order not to overburden the Day Book, adjustment entries, such as those of the Jumabundy or the Dead-stock, are forbidden, and only a few indispensable ones allowed. When a mistake has been made in any entry, such as an over-credit to Land Revenue by under-credit to Local Funds, it may be rectified by an adjustment; and when items properly belonging to one Talooka happen to be credited in the accounts of another, an adjustment is made thus: the receiving Treasury credits the amount in its Day Book and Daily Sheet, and informs the demanding Treasury in a Memorandum: the latter will make no entry in its Day Book but will give credit in its Detailed Revenue Receipt Book (Form No. 2), and inform the Huzoor at the foot of its Daily sheet.

5. When the cash balance at a Talooka much exceeds an amount usually prescribed by the Collector in each case, the excess is to be remitted to the Huzoor, or another Talooka if desired. Such remittances are not to be debited in the Day Book until the receipt of the receiving Treasury has been obtained, but the amount must in the meantime be separately shown in the Balance as "cash in transit."

6. The Huzoor Treasury sometimes draws on the Talooka Treasury either (1) in payment of bills and claims on Government, or (2) in repayment of cash received at the Huzoor from bankers or merchants by way of clearing the Talooka balance. In the former case green orders are used, in the latter red. The amounts are simply debited and the orders forwarded as vouchers.

7. The Talooka accounts are transferred to the Huzoor by means of a Daily Sheet, which is to be posted every evening before the Mamlutdar and establishment disperse. Transactions should be closed at such an hour in the afternoon as may leave time to make up the accounts and Daily Sheet. No classifications should be attempted in the Daily Sheet, but receipts or payments of the same kind should be grouped together from the Day Book of which the Sheet is in fact a transcript (details of Deposits being added from Forms Nos. 6 and 7, as also any special items from other expansions which the Huzoor may require).

8. The Daily Sheet must be accompanied by vouchers for all the payments it contains, excepting in certain cases such as those for establishment (*vide* Forms Nos. 8 and 9). A Receipt Book should be kept, in which all miscellaneous payments, for which there are not separate forms, should be acknowledged as well as in the separate vouchers.

9. Transactions in currency notes are as yet of rare occurrence in most Talooka Treasuries. Where, however, they happen to take place a register must be kept in the following form:—

Register of Currency Notes of the value of Rupees received and paid at the Talooka Treasury.

Date of receipt	From whom received.	Number of each Note.	Date of paying away.	To whom paid.

A separate sheet in the book must be used for each denomination of Note.

Notes should be entered in the order in which they are received, and paid away in the same order.

This Register may be considered as a Supplement to the Day Book in explanation of the transactions in it which are in Notes.

At the end of the month the balance in hand in Silver, Copper, and Notes should be shown separately in the Day-Book and Daily Sheet. The receipts and issues of copper coin may be noted daily in a rough Memorandum book if, at any time, the Huzoor should require for the Accountant General a return regarding them.

REMARKS ON FORM No. 2.

This document is the most important of those which have been designated expansions of the Day Book, since its object is to show how the proportions in which the total or lump sum credited in the latter on each day, under each revenue head, has been contributed by the several villages, or other contributories in the Talooka. The form will generally explain itself, but a few special directions and explanations may be useful.

2. Economy of space being important, not merely to reduce the cost and bulk, but also to facilitate reference and calculation, the number of inner sheets should not exceed actual requirements, and villages or contributories should not be entered in column 2 until an item is actually received from them, excepting in those months when revenue instalments fall due. In those months it will probably save confusion if all the villages are entered at the commencement in the established order (also adopted in the Annual Abstract, Form No. 19). The contributories, that is, farmers or fixed heads of receipt, may come below the villages. Every village or contributory, whenever occurring, should be designated in column 1 by a fixed number, which should be the same as that borne by it in the Annual Abstract. If two items should happen to be received from the same village in the same day, they may be connected by a bracket.

3. Columns 3, 6, and 8 may each comprise several items, but as they are of comparatively rare occurrence, it has been thought sufficient to put a summary of them at the foot of the columns respectively.

4. Column 4 is for the ordinary Land Revenue, whether in surveyed or unsurveyed districts, summary settlement, wuttun settlement, quit-rent or Sulamee, Nuzerana under Bombay Act II. of 1863, and all similar items which do not fluctuate from year to year.

5. Column 5 is for all fluctuating or occasional items, such as sale proceeds of grass, grazing, firewood, cultivation in river beds, right of occupancy, nuzzerana, fruit-trees, process, redemptions, and the like. A summary of them, showing separately such items as are required separately at the Huzoor, should be put at the foot of the column.

6. Column 6 is for all Abkaree items, such as the produce of toddy and date-trees (not annual assessment), liquor farms and license fees, and fees for licenses to sell bhang and ganja. A Suddér Distillery should be treated as a village.

7. In Column 7, Local Fund interest should be distinguished in the summary at the foot. Column 8 is to contain sale proceeds of earth, sand, etc., tolls, ferries, quarry fees, and similar items belonging entirely to the Local Funds. Where there are separate contractors their names will appear as contributories in column 2.

8. Advances to cultivators (Tuccavee), cost of boundary marks, the 25 per cent deposits at auctions, and ryots' contributions are not to be entered in this account even though appearing in the village accounts, because they are not specific demands comprised in the Jummabundy, to which this account is restricted.

9. Remissions at the Jummabundy or otherwise, including those of outstanding balances, are to be entered as receipts in this account on July 25th of each year, in one of the blank day columns, which should be headed "Remissions" accordingly.

10. When items belonging to one Talooka are credited in another, the receiving treasury will simply credit the amount in its Day Book and Daily Sheet, and inform the Talooka Treasury on whose account it has been received. The latter will thereupon credit the item in this account; but the fact that it is an adjustment will be indicated in this account and also at the foot of the Daily Sheet with fuller detail, that the requisite credit may be given only once at the Huzoor in the Talookawar Detail Book in the account of the Talooka to which it really belongs.

11. In the event of over-collections or erroneous over-credits taking place, the amount is to be entered in the column for deductions at the close of this account in the month when the refund or adjustment may be made. In the case of cash refunds there will be in the Day Book a corresponding debit, and in that of correction of error of heading (*e.g.* Land Revenue credited to Local Funds by mistake) a debit and credit. The total of such deductions in each month will be carried to the column provided in the Annual Abstract.

12. This form is to be regularly despatched to the Huzoor with the last daily sheet of the month, and returned with the least possible delay, endorsed by the Head Clerk, Head Accountant, and Treasury Officer, to the effect that it has been compared with Huzoor No. 3 and the two correspond (G.R. No. 848 of March 28th 1872). A certificate to the same effect should at the same time be sent to the Collector, who will despatch it to the Revenue Commissioner not later than the 10th of the month (G. R. No. 5471 of November 2nd 1872).

13. The orders of Government regarding the examination referred to in the preceding paragraph are stringent, and state that the officers concerned are distinctly to understand that they will be held personally responsible for any error that ought to have been rectified at the time of comparison. Orders for changes of heading from the Huzoor should, after execution, be returned by the Mamlatdar through the Collector (G. R. No. 4238, July 24th 1873).

				3,500 8 0	

REMARKS ON FORM No. 3.

This account is intended for use in certain Collectorates, where owing to there being no District Forest Officer, or to his not being entrusted with the duty of detailed collection, Forest receipts are paid in small sums direct to the Mamlutdar, or a Forest Carkoon under his orders. The Daily total of this account is carried into the Day Book with the details given in the form.

		Rupees one hundred and twenty-seven.....	127 0 0	(Signed) Treasurer.
				127 0 0	

REMARKS ON FORM No. 4.

This form* is an expansion of the Day Book with the view of dispensing with detail in the latter, and connecting the total amount of the daily receipts, which alone is to be carried to the Day Book, with whatever detailed Registers the Collector of Income Tax may keep according to the separate orders of Government. Payments may be received and credited in this account by the Treasurer or other Talooka Officer in the absence of the Collector of Income Tax, provided the proper receipt is ultimately issued by the latter.

* The Income Tax is now (1873) abolished, but the form is retained here, as it will probably be found suitable for the Non-Agricultural or other Tax which may from time to time be levied.

TALOOKA FORM No. 5.

REMARKS ON FORM No. 5.

This is a small detail Book, in which fees levied under the authority of Section 88 of Act VIII. of 1871, and the Rules of May 2nd, 1872 (*Government Gazette*, page 618), are credited in detail. The daily total is to be carried to the Day Book. Where such fees are of rare occurrence, this book need not be kept, but they may be credited in the Day Book direct.

2. When such fees are levied by a village accountant or other officer, he must keep an account in this form.

REMARKS ON FORMS Nos. 6 AND 7.

The amount of sums which are received into the Collector's Treasury merely as Deposits, to be refunded or otherwise dealt with after a longer or shorter period, is very considerable. In order to ensure their being duly brought to account, repaid to the proper persons, and not mixed up with other items, they are divided into two classes—Revenue and Judicial, and their receipt and payment are shown in two Registers (Forms 6 and 7) accordingly.

2. Revenue Deposits comprise caution money of auctions and contracts, receipts from Inam villages to be paid to Huckdars, revenues of estates under the management of the Collector or Agent, etc., etc.

3. Judicial Deposits comprise sale proceeds of stray cattle and property found without an owner, fines retained pending period of appeal, and receipts of various kinds deposited by Judicial Officers, such as Nazirs and Subordinate Judges. In places where there is a Civil Court, the Judicial Civil Deposits should be shown separately from the Criminal in distinct Registers in the Form of No. 7.

4. Deposits should not be received by Mamlutdars from private individuals without authority previously obtained.

5. Every item received should be shown in detail in the Register, and from that similarly entered in the Daily Sheet, but only the daily totals of receipts need be given in the Day Book. Every item repaid, on the contrary, should be shown in detail in the Day Book as well as in the Daily Sheet and Register.

6. These Registers are not to be closed at the end of the month or year, but each item is to run on until cleared by repayment or adjustment. In order, however, that proper check may be maintained, a quarterly statement of all Deposits remaining, with the reasons for their not being cleared, is sent from the Collector's Huzoor to the Revenue Commissioner.

(Signed)

Mamlutdar.

Note—Income-tax entries are of course unnecessary at present (1873).

REMARKS ON FORM No. 8.

An Abstract of the pay due to the Revenue Establishment should be prepared in duplicate monthly at the Talooka, according to the authorized scale, and in this form.

2. As a rule, all pay should be issued on the 1st, and not later than the 10th of the month. The amount paid each day should be noted in the Abstract and charged off in the daily sheet, without voucher, till the 10th, when the Abstract should be made up by filling in the summary at the back, and the original should be sent to the Huzoor, the duplicate being filed. On the subsequent issue of any pay remaining undischarged on the 10th, the separate receipts of the recipients should be sent as vouchers, and reference made to the Abstract in which the amount was shown as due, or a supplementary Abstract may be sent in not later than the 20th, after which date no pay should be disbursed till the following month.

3. All recipients of more than Rs. 20 must furnish a receipt Stamp of one anna. The head of the Office must affix his stamp to the original Abstract forwarded to the Huzoor, and must see that the stamps of all subordinates are duly affixed to the duplicate retained at the Talooka and obliterated.

4. Should it be necessary to issue at a different Talooka Treasury pay included in any Talooka Abstract, the Mamlutdar should make a requisition on that Treasury, noting that he has done so, but making no entry in his Day Book or daily sheet. The Mamlutdar who pays the requisition will send it with the receipt, to the Huzoor, where it will be admitted as a voucher after reference to the Abstract.

5. The total amount paid on an Abstract in any one day should be entered in the Day Book in a lump sum, the proportions debitable to Land Revenue and to Law and Justice being alone distinguished.

6. The pay of other establishments is to be disbursed in accordance with the above general principles, and on the authority either of fixed lists supplied through the Collector, or special orders received from the Huzoor.

REMARKS ON FORM No. 9.

An Abstract of the Pay and Contingent Allowance due to the stipendiary village Accountants (Tulatees) should be prepared monthly at the Talooka according to the authorized scale and in this form.

2. The rules as to period of disbursement are the same as those for the Talooka Pay Abstract, as are those for effecting a payment through another Talooka.

3. The Village Abstract is not forwarded to the Huzoor, but the Mamlutdar is held responsible that its details are correct. The total disbursement in any one day is entered in the Day Book in a lump sum, merely distinguishing salary from Contingent Allowance.

4. In order, however, to maintain suitable check at the Huzoor, two summaries of the village payments are sent there on the 10th of each month. Subsequent payments are treated similarly to those of the Talooka establishment. The two Abstracts are in the following forms:—

A.

General Abstract showing Disbursements in August 1870, on account of Salaries to Tulatees for July 1870. Talooka _____ Zilla _____

Number of persons receiving each rate of pay	Rate of Pay.	Amount sanctioned.	DEDUCTIONS.				Net Amount Paid.	REMARKS.

N.B.—The totals for each month having been taken as above, a grand total should be taken for the whole year.

REMARKS ON FORMS Nos. 10, 11, AND 12.

The two last forms (8 and 9) have reference to the payment of the regular stipendiary establishments employed for the direct current administration of the Talooka and its villages. Besides these, however, there is a large class of payments, some directly and others more or less remotely connected with the administration, which are made by Government at certain fixed periods during the year. These payments, from their magnitude and the hereditary nature of many of them, demand the careful scrutiny and attention of controlling officers of all grades, and with this view they are recorded on the days of disbursement in the three forms here given, according to the class to which each may belong, and are also posted from these forms (which are expansions of the Day Book) into three subordinate Ledgers (Form Nos. 20, 21 and 22) which will be explained further on.

2. The first class is composed of all charges connected with the village, excepting the pay of the stipendiary accountant, if there is one, and Form No. 10 is assigned to it. Here appear the Patel, the Wuttundar Koolkurnee, the village servants (whether hereditary or stipendiary, and whether rendering service to the State or the community), the village sadilwar allowance, and any petty religious or charitable allowances still debited to the village which have not yet been regularly enquired into and brought into the head of "Allowances under Treaties and Engagements," which come in Form No. 12.

3. The second class comprises the cash emoluments of District Hereditary Officers of all denominations, whether they have elected for a service or a non-service settlement, and appears in Form No. 11. As many columns should be used as there are different denominations. It is believed that in the majority of instances all the officers in a Talooka will belong to either one denomination or the other, but where both occur, no inconvenience will be caused by their being intermingled in this Form, as they will be posted separately in their ledger (Form No. 21).

4. The third class, for which Form No. 12 is intended, consists of the great body of "Allowances under Treaties and Engagements," that is, allowances which have been enquired into and finally guaranteed under various conditions by the Government. Dewusthan (or temple) and Dhurmada (or charitable) Grants, Compensation to Hucdars, Political Pensions, Girass, Umuls, Kothli Santh, Moglai, etc., are among the principal items occurring in this class.

5. Payments are shown in these three forms according to the dates on which they take place, and the signature of the recipient is taken in the last column (with stamp if necessary). The item is then at once posted in the corresponding ledger, Form No. 20, 21, or 22, and initialled by the Mamlutdar.

6. Before making any payment, care should be taken to refer to the proper ledger to ascertain the total amount due, the portion already paid, if any, and the amount and period fixed for the next instalment.

7. The total disbursement in one day, under each head of any one of these forms for each year, should in the evening be carried to the Talooka Day Book, further detail being unnecessary. Service and non-service Wuttundars should be distinguished.

REMARKS ON FORM No. 13.

In order to defray the cost of paper, ink, string, wax, and similar articles of stationery, each Mamlutdar has a fixed petty supply allowance, which he draws monthly in a contingent bill and expends from time to time as necessary. The Mamlutdar is primarily responsible that this allowance is expended on the prescribed objects alone (*vide* R. C., Appendix I., 2.), and must show his accounts when required to do so. No excess is under any circumstances admissible, but any surplus at the end of the year must be carried to the credit of Government.

2. Besides the above, however, there are certain charges which are necessarily very variable in amount, and which must be paid at the time, before reference to higher authority, such as batta and railway fare of prisoners and witnesses, conveyance of treasure, and other emergent charges awaiting sanction. For these purposes a permanent advance of Rs. 50 is allowed for Magisterial charges, and a smaller amount fixed by the Collector for Revenue ones. Each advance is debited in one sum in the Day Book, and then credited in this account, in which the subsequent expenditure is shown in detail. At the end of each month, or sooner, if the advance is exhausted, a contingent bill showing the expenditure in detail is sent to the Huzoor, and a fresh advance may afterwards be drawn. The details of batta to prisoners and witnesses are not shown in this form, being too elaborate, and required for check in the Magisterial Department. They are, therefore, given in a separate Form, No. 14, the daily totals of which are alone transferred to this form.

3. The advances mentioned in the last paragraph, and any others similarly permanent, are not actually refunded at the end of the year, but are credited at the Huzoor on the last day of the year, and re-issued on the next office day by means of a simple receipt (G. R. No. 2700, July 17th, 1873). As they are debited to the head of the officer receiving them personally, any officer giving over charge to another should obtain from his successor a distinct written acknowledgment of the balance transferred.

Caroon preparing the Account.

(Signed)

2nd Class Magistrate.

REMAKRS ON FORM No. 14.

The batta paid to prisoners and witnesses, the cost of their conveyance, and other similar items, being a very heavy charge upon the State, are entered in full detail in this form, so that they may be checked by the District Magistrate and the Magistrates in charge of Talookas whenever occasion offers.

2. The daily totals are carried from this account into that kept in Form No. 13, and a copy of the general summary at the end of this account is also forwarded to the Huzoor on the 26th of every month, or whenever the accounts are closed.

3. The Mamlutdar or other superior officer is to see that the food given to prisoners is full quantity and good. Money must never be given to them. All articles must be paid for at the time in cash, and Banians' accounts avoided. If an arrangement for a fixed price be made at the commencement of each month, the confusion of petty changes in the market rates will be avoided.

REMARKS ON FORM No. 15.

Occasionally it is necessary for the Government to make cash advances to ryots, to enable them to meet extraordinary expenses, such as loss from fire or cattle disease, or to make extraordinary efforts, such as colonising waste lands, digging new wells, purchasing expensive European agricultural machinery, etc.

2. When such advances are made, an account is to be kept in this form, which will mostly explain itself, and will be seen to be an expansion of the Day Book, combined with a record of subsequent repayment of advances and the balances outstanding at the end of the year.

3. The form opens with the balances outstanding at the close of the preceding year. Fresh advances are then entered on the dates when they occur, and if there be more than one in a day, the total only is carried to the Day Book. Repayments will be credited in the Day Book as they occur, and if several be made together, by one Tulatee for instance, the details need not be specified there, but they must be correctly posted up in this form to the credit of the individuals by whom or on whose behalf they are made. At the end of the year, remissions granted should be deducted and a balance struck. The annual abstract should then be made out and a copy transmitted to the Huzoor.

4. The rules under which Tuccavee advances may be made and are to be recovered, need not be specified here. They will be found in the Revenue Handbook, p. 64-6, and Act XXVI. of 1871.

REMARKS ON FORM No. 16.

The issue of opium to vendors, licensed under Regulation XXI. of 1827, is one of the duties of the Revenue Department, and the transactions are recorded in detail in Form No. 16. Talookas are debited with their supplies by the Huzoor, which keeps an account with the Commissioner of Customs.

2. The mode of debiting waste, and of other transactions, will be apparent from the Form.

3. Opium vendors are required, by Section XV. of the above Regulation, to send to the Collector (through the Mamlutdar) at the end of each month, an account in detail of the quantities received, sold, and remaining, which should be in a form generally corresponding to this. The fees paid by vendors should be credited in the Day Book direct, except where they are very numerous, or paid in several instalments, in which case a separate detail book, showing demands and collections, may be kept.

4. A simple Summary of this Form is sent monthly to the Huzoor in the following form:—

Date.	QUANTITY.			Rate.	Item.	Total Value.
	Maunder.	Seers.	Tolas.			

The debit side is exactly similar.

I hereby certify that I have tested this Annual Abstract by comparison (1) with the Talooka Summary of village revenues (No. 27), the Talebund (No. 28), and other papers, and (2) with the Talookawar Detail Book and other papers; and find the demands, collections, and outstanding balances to be correct.

REMARKS ON FORM No. 19.

1. The account in this form is, in effect, a brief Ledger, in which the entries of revenue receipts in the expanded Day Book (Form No. 2) are posted up once a month, and the demands of Government are also inserted when they have been completely settled; a balance is moreover struck between the two at the close of the year.

2. This account should be opened at the commencement of the Revenue year on August 1st by inserting the names of all the villages in the Talooka in the customary or established order, which should be that also adopted in the Talooka Revenue Summary (Form No. 27). The numbers used to designate the villages should be the same in both, and should be adopted whenever the villages occur in Form No. 2. Next to the villages should follow all other contributories to Government, such as Farmers of Abkarree. Tolls, Ferries, etc., and fixed heads of receipt, if any, such as miscellaneous Fees.

3. The outstanding balance of the preceding year may be entered on August 1st in column 3, and the demands from farmers may be inserted as soon as each is fixed; but the amount of the Jumma bundy should not be filled in till the close of the year, when all extraordinary or additional items of revenue have been ascertained. If in any instance the outstanding balance is for several years, the details must be given in column 2. On the other hand, no heads not required should be inserted. The number actually needed in each case can be ascertained by reference to the General Abstract (Village No. 10) of each village.

4. The total of column 3 will of course correspond with that of the last column of this account for the preceding year. The details of columns 4 and 6 will correspond with those in the Talooka Revenue Summary (Form No. 27) and the totals with the Talooka Jumma bundy Talebund (Form No. 28). The Abkarree figures in column 5 are taken from the Talooka Revenue Summary and the papers of auction sales. The interest is similarly ascertained.

5. When excess collections are refunded during the year, they will be posted in the concluding columns of this account from the corresponding ones in Form 2; when they are not, they may be shown separately in an extra column at the end.

6. The total receipts of each head at the end of each month are to be regularly posted into the summary at the foot of this Form from Form 2, and cast up at the end of the year, so that a correspondence between the two may be ensured. The demands in this Abstract cannot be filled in until the end of the year, as stated above.

	Payments.					Struck off.	Total.		
	May.	August.	November.	February.	Total.				
7	8	9	10	11	12	13	14	15	16

REMARKS ON FORMS Nos. 20, 21, AND 22.

1. These three Forms are Ledgers in which the daily payments recorded in the detailed Day Books, Nos. 10, 11, and 12 (which are themselves expansions of the Talooka Day Book), are posted as they occur, and the total amount due to any individual, with the balance undrawn by him, if any, is also recorded. They are required by Government on account both of the magnitude and importance of these allowances, and of the necessity for recording undrawn amounts, which may be claimed after the lapse of years.

2. The year for payment of service items is calculated from August 1st to July 31st, and that for non-service items, from May 1st to April 30th. The first seven columns of Form No. 20, and of the second or service portion of Form No. 21 (if any), which show the amounts payable in the year, should therefore be written up ready by August 1st of each year. The same columns of Form No. 22, and of the first or non-service portion of Form No. 21, should be written up by May 1st.

3. The periods of payment of service allowances are similarly the months of October, January, April, and July, and of non-service allowances, May, August, November, and February. An allowance not drawn during the month, when it may be due, cannot usually be so until the next month of instalment.

4. Patels and Koolkurnees are to be paid in two instalments, unless the sum be less than Rs. 25, in which case it should be paid in the lump at any time from May to July. All other village servants are paid in four instalments. District Hereditary Officers doing service are to be paid in two instalments, unless the sum be under Rs. 50, in which case it should be paid in July.

5. Non-service items are disbursed in one lump sum in the month of May following the completion of the year to which the amount relates, or, if not drawn then, in the months of August, November, or February following. Dhurmada and Political Pensions are usually paid in May, but, if not claimed then, can be drawn in the following November. Some Devusthan and Dhurmada allowances also are paid at special times, such as before the annual festival, and some pensions are paid monthly. Such cases are disposed of according to the standing orders relating to them, which need not be particularised here.

6. The allowances in No. 21 being sometimes of both kinds, service and non-service, and the months of instalment of the two being different, the latter should precede the former in the form, and fresh names of months should be written in when they have all been entered.

7. The allowances in Forms 21 and 22 are divided into five classes,—permanent, hereditary or continuable in the male line, for more than one life, for life, and not inquired into. The particulars are from time to time received from the Alienation Department, or revised on inquiry.

8. The entry of names in lieu of those of deceased holders of allowances of all kinds takes place under the orders of the officers who may be authorised to deal with the several grades by the standing orders of Government, and in accordance with the Rules which have been issued from time to time by the Revenue Commissioners and Government for observance in different Collectorate.

9. If a person apply for an allowance, and there be some objection to paying it without reference or inquiry, a written certificate should be given to him, stating that he duly applied on a certain day, and an entry to the same effect, signed by the Mamlutdar, should be made in the corresponding form, in the column of remarks. Arrears due to deceased recipients should be at once paid to their legal heirs, unless the allowances have not been inquired into. Allowances which have fallen into arrears through the neglect of the recipients are liable, on disbursement, to a deduction proportioned to the delay, or to be struck off, as laid down in Order No. XXXIII., R. C. page 95, N. R. H. pp. 403-5. Only the net amount actually paid is to be shown in the Day Book, the deduction being entered in the proper column of these forms, and explanation, if necessary, given in the remarks.

10. Form No. 20 and the service portion of Form No. 21, if any, are to be totalled up on July 31st of each year. The non-service portion of Form No. 21 and the entire Form No. 22 are to be closed on April 30th. The disbursements should be carefully compared with Forms Nos. 10, 11, and 12. The method of closing and making the final Summaries will be seen from the Forms.

REMARKS ON FORMS NOS. 17, 18, AND 23.

1. The custody and sale of Stamped Paper and Stamps of all kinds is an important branch of the duties of all Treasury Officers.

2. Stamped Paper is at present divided into two principal Sections—(1) General, *i.e.*, that which may be used for all documents enumerated in the General Stamp Act, XVIII. of 1869 (other than those for which Adhesive Stamps are prescribed). The papers used for all ordinary purposes under this class bear a bi-color Stamp of blue and black colours, but those for certain objects, such as Hoondees, Bills of Lading, &c., are of a special character and usually impressed. (2) Court Fee, *i.e.*, that which must be used exclusively for all documents coming under the Court Fees Act, VII. of 1870. The papers under this class are bi-color of red and black colours.

3. Stamps, that is to say, not paper on which anything can be written, but Adhesive Labels to be used on certain occasions, are of various kinds, such as Postage, Service Postage, and Receipt or other Stamps.

4. Stamped Paper is kept in store in all Treasuries. Papers of Rs. 50 and upwards in value are sold by the Huzoor Treasurer and the Mamlutdars as a part of their ordinary duties; but those of smaller value are issued for cash for retail sale to licensed vendors, who are remunerated by a commission on their purchases. Adhesive Stamps, on the other hand, are not sold by retail at the Treasuries, but are obtainable there for cash only, by any person whatever, in quantities of not less than Rs. 5 worth at one time, a certain discount being allowed at the time of purchase. Regarding discount on Postage Stamps see Rules which came into force on July 1st, 1873.

5. Two kinds of accounts, corresponding with the above two classes,—Stamped Paper and Stamps,—are kept at each Treasury.

6. The first kind is in Form No. 17, and comprises sales by the Mamlutdar or other officer to private persons and vendors. Two Summaries of it are made at the end of the month. The first (A) remains at the Talooka, and its principal object is to ensure a proper scrutiny of the transactions and balances at the end of the month, and afford a ready means of ascertaining that papers are sold in the order in which they are numbered, and when particular numbers were sold. The second Summary (B) is for the information of the Huzoor, to which a copy is forwarded at the beginning of each month.

7. The second kind of account, which is for Stamp Labels only, is in Form No. 18, and shows sales. The form is drawn out to suit Postage

Stamps. Similar accounts must be kept for each distinct kind of label which may be in store, the columns being increased or diminished in number according to the different values of stamps of the same kind. In certain cases only one or two columns may be necessary. An Abstract showing the totals of receipts and sales in Form No. 18, or of as many separate accounts in this Form as may be kept, should be sent monthly to the Huzoor.

8. The total amount of cash receipts in the day in Form No. 17 is to be carried to the Talooka Day Book. The commission allowed is to be debited in the Day Book as a cash payment to them, not deducted from the sums they pay in, and should be shown in the Monthly Summary B, which goes to the Huzoor.

9. *In addition to the above accounts, a Ledger in Form No. 23 is kept of the advances made to vendors in No. 17 and their recovery. This Ledger is balanced at the end of every month, and care should especially be taken that the balance of paper do not exceed the amount of the vendor's security. Its results appear in the Monthly Summary B of Form No. 17. **

10. Penalties and value of paper received under Sections 20 and 24 of Act XVIII. of 1869 are usually paid in at the Huzoor, but may be taken by Mamlutdars if the Collector so orders. In either case the amount will be credited in the Day Book direct. Cash refunds under Section 45 may be made by Mamlutdars under the Collector's instructions on receipt of a *green order* from the Huzoor Account Department, the debit being made in the Day Book only. If a new Stamp be issued instead of a spoiled one by a Mamlutdar under the Collector's orders, the Mamlutdar will debit in No. 17 the new stamp given to the party as remitted to the Huzoor, and report having done so, returning the spoiled stamp if it has been sent to him, which it need not be. The Huzoor will credit the spoiled and good stamps in the stock account as "Returned by purchasers" and "Remitted by the Mamlutdars" respectively, and will debit (1) the good stamp as issued in lieu of spoiled ones, and (2) the spoiled stamp at the end of the month as "Returned to the Superintendent of Stamps" sending it at the same time to that officer with his account.

11. Since Stamps and Stamped Papers of all kinds are issued to Talookas from the Huzoor Treasury, the accounts at the Huzoor in Forms Nos. 17 and 18 will, in addition to what has been above described, contain advances or issues to all Talookas.

REMARKS ON FORMS Nos. 24 AND 25.

1. Stamp vendors are public servants, within the meaning of the Penal Code, and the records which they keep are Government Records. The books which they are required to keep under the Rules published under Section 48 of the General Stamp Act and the Subsidiary Rules of Novr. 16th 1870, para. 9, are in Forms Nos. 24 and 25, and relate exclusively to what have above been termed Stamped Paper, since they, or any one else, may sell without control mere Stamp labels. Form No. 24 is a Day Book in which the value of paper in hand and of paper received during the day is credited, while sales by the vendor are debited, the balance in hand at the close being in paper. Form No. 25 is an expansion of Form No. 24, kept chiefly with the view of checking the endorsement by the vendor of the names of recipients of Stamps, and of tracing individual Stamps for judicial purposes. On the 25th of each month every vendor must show his books and balance of papers in hand to the Mamlutdar or 1st Carkoon, and must send in a copy of the Abstract of Form No. 25 for record. The balances of ex-officio vendors should be carefully counted by the Treasurer or other responsible officer on the first of every month.

N.B.—In the last column, Village Servants useful to Government should be distinguished as Hereditary and Stipendiary, Revenue and Police, as stated above, at page 48, para. 5.

REMARKS ON FORM No. 26.

1. This form is a summary of the Village Form No. 9, of alienated lands extracted from the Village General Abstract No. 10, with the addition of columns for increase and decrease, that the general condition of the alienations may be the more readily ascertained and regulated by superior authority. Its totals of course must tally with those of columns 11 to 19 of the Mouzewar Terij (No. 27), and with the entries in the Talooka Jumma bundy Talebund (No. 28). This account is to be framed immediately on the receipt of Village No. 10, in March, and a return showing its totals should be forwarded to the Huzoor, that the annual adjustment of alienated lands may be made in the accounts. If any increase or decrease in alienations occurs after the March adjustment, it should be brought into the accounts of the following year, any receipts which may accrue in the meantime being shewu as receipts subsequent to the jumma bundy. In filling the columns of increase and decrease the more important causes should be shown in the separate columns and the others under miscellaneous.

2. The entries in this Form are in all cases the net alienations after deducting quit-rents.

FORM No. 27.

Talooka _____, *Zilla* _____, 1870-71.

REMARKS ON FORM No. 27.

1. This Talooka Revenue Summary, commonly called the "Mouzewar Terij," is compiled from the General Abstracts of Lands and Revenues (Village Form No. 10) of the villages, which are sent in to the Talooka for examination in July, as already explained (see page 54). It should be commenced immediately after the close of the year, and promptly completed and tested by the Mamlutdar. The mode in which it should be filled in requires little explanation. It must, of course, tally as to items shewn in the village accounts, with the Annual Abstract (No. 19) and the Talebund (No. 28), which, in fact, are made from it. Where all the alienated villages of a Talooka have been surveyed, the whole of the details required in this form will be forthcoming, but where this is not the case, only the area of Government lands in such villages (if any) and the amount of gross assessment, alienations, and quit-rents can be inserted. The more important causes of increase and decrease should be put in the separate columns.

2. An extra column should be inserted after column 5 for the total area of land set apart for public purposes. See below, page 233.

Mamlutdar.

I hereby certify that I have thoroughly tested this Talebund by comparison with the Summary of Village Revenues (No. 27) and the Annual Abstract (No. 19), and the original Village Talebunds and other papers, and find it to be correct.

(Signed)

Assistant (or Deputy) Collector.

REMARKS ON FORM No. 28.

1. This Form is similar in kind to Village No. 10, being the one in which the accounts of all the villages in the Talooka are brought together into one view. It is framed after the close of the year from the Mouzewan Terij (No. 27) and the part of the General Abstract at the foot of Form No. 19 which relates to liquor and other auctions; in other words, No. 27 will supply all items which pass through the Village Accounts, and No. 19 the remainder, which are managed direct from the Talooka Kutcherry. The causes of increase and decrease in alienations come from No. 26. The numbers and dates of the Collector's orders for every grant or resumption must be quoted. Where they are not numerous they may be put in the column of remarks, but if otherwise, a separate list of them should be appended.

2. It is needless to dilate on the care with which this important document, embracing the whole regular revenue of the Talooka, is to be drawn up. It should be signed by the Mamlutdar.

3. The Assistant or Deputy Collector in charge of the Talooka is required (Government Resolution No. 1454, November 6th, 1869) to test this Talebund thoroughly by comparison with Nos. 27 and 19, and the original Village Talebunds (No. 10) and other papers from which they are compiled, and then to test the collections shown in No. 19 by the Talookawar Detail Book (Huzoor No. 3) to be obtained for the purpose, and the amount of balance outstanding. A certificate of correctness must in each case be given, when errors, if any, have been rectified.

4. A copy of the Talebund must be sent to the Huzoor by the end of August, at latest, for use in preparing the Collector's Jumma Bundy Report. It must be accompanied by a certificate that the whole of the village accounts have been closed, examined by the Mamlutdar, and corrected where necessary.

5. The total area of land set apart for public purposes under section 32 of (Bombay) Act. I, 1865, should be deducted from the Kumal in village Form No. 10 and this Form, in a separate head following "Unculturable Waste."

REMARKS ON FORM No. 29.

1. Remissions cannot be given, especially in surveyed Talookas, without very special cause and separate sanction (*vide* pages 27 and 62 to 64 of N. R. H). Where any happen to have occurred, the Mamlutdar must make a statement of them in this form, and send a copy to the Huzoor along with the Talebund (No. 28).

REMARKS.—This Form speaks for itself. It is to be prepared, and a copy forwarded to the Huzoor with the Talebund.

TALOOKA FORM No. 31.

Index of Resignations, Leases, Transfers, and Successions to Government and Alienated Holdings.
Talooka _____, *Zilla* _____, 1870-71.

No.	Names of Villages.	Name removed from the Register on resignation, transfer, or death.	Name entered on leasing, transfer, or succession.	Nature of entry.	Number.	Area.	Assessment.	Date of receipt of application from the Villages.	Date of Sanction given at the Talooka.
1	2	3	4	5	6	7	8	9	10

REMARKS.

1. This is a Register kept of the Razeenamas and other documents relating to the change of ownership or occupancy in land, submitted by the Village Accountant for the Mamlutdar's sanction, and subsequently recorded in his No. 18. At the time of the Jumma bundy the Mamlutdar must test the Village Accounts by reference to this Register. The Assistant or Deputy Collector, when he examines the Talooka Dufter, must see that it is regularly and correctly written up. In order to facilitate reference to this Index when testing village accounts, an alphabetical list of the villages in the Talooka should be prefixed to it, and when any new entry is made, its consecutive number should be noted opposite the village in this list to which it may belong.

TALOOKA FORM No. 32.

Statement of Sanctioned Charges of Revenue Collecting Establishments.

REMARKS ON FORM No. 32.

1. This Form is compiled from the various Abstracts of Establishment (col. 4 of No. 3, cols. 4 and 5 of No. 9, and Nos. 20 and 21), and a copy is sent to the Huzoor with the Talebund. It is then completed by the addition of the Batta drawn by the Talooka Kutcherry Officers, as shown in the Talookawar Detail Book (No. 3), and compiled into the Collector's Form No. 20 sent to the Revenue Commissioner, the object of which is to control generally the charges of collection and bring to light excess in individual Talookas or Districts. Only a moiety of the salaries of Officers exercising Magisterial power is entered in this Statement.

TALOOKA FORM No. 33.

STATEMENT of Condition of Boundary Marks. Talooka Zilla, 1870-71.

Name of Talooka and Mahal.		Number.		Name of Village.	Total number of Fields.	CONDITION OF THE BOUNDARY MARKS OF THE FIELDS ENTERED IN COLUMN 4.								REMARKS.

The Collector of

Mamlutdar.

REMARKS ON FORM No. 33.

1. This Form is kept with the view of tabulating and checking the working of Village Forms Nos. 3 and 4 and whatever action may be taken upon them. The Form is opened by filling in the first four columns. The materials for the 5th and 6th columns should invariably be obtained from the "General duty" Carkoon, who may examine the village. Those for the remaining columns will be either furnished by the Village Accountant or obtained personally by the Mamlutdar on inspection, or a Carkoon specially sent. Every Mamlutdar who is a good Revenue Officer will endeavour to get the inspection by "General-duty" Carkoons completed early in this season, so as to know the state of his charge and take corrective measures where necessary. Assistant or Deputy Collectors must see that this Form is properly kept up.

2. A copy of this Form must be forwarded to the Collector through the Officer in charge of the Talooka, on the 1st of May in each year, that there may be time for him to take further measures if he desire to do so.

REMARKS ON FORM No. 34.

1. This Form is a compilation of the General Statistics recorded by the several Village Accountants in the Village Forms Nos. 13, 14, 14, and 16. It is filled up as follows : columns 3 to 16 and 128 to 140 from the Abstracts of Form No. 13 (*vide* para. 4 of remarks on that Form); columns 17 to 127 from the Monthly Abstracts of Form No. 14; columns 141 to 148 from the copies of Form No. 15; and columns 149 to 228 from the Abstracts and totals of Form No. 16. Some of the uses to which various portions of this Form are put will now be enumerated.

2. *Jummabundy Report*.—The total areas under each kind of crop, which are given in every fourth column from column 149 (153, 157, 161, etc.), are embodied in a statement to be sent annually by the Mamlutdar to the Collector, who refers to them in his Jummabundy Report under Section XV., Description of produce, and compiles his own Return No. 17. Column 11 of Form 16 for that report is also filled in by the Mamlutdar from columns 213 and 214.

3. *Irrigation Returns* for the Government of India, required under Government Resolution, Public Works Department, No. 144 I—2729 of November 20th, 1868. In Table I. of these Returns, which are sent annually by the Mamlutdar to the Collector in the month of September, the areas of cultivable land are taken from columns 201, 202, 206, 207, and 208; the details of irrigated and unirrigated, khureef and rubbee, from columns 209 to 216; the population from columns 14 and 15. (The total area and portion barren is found in Talooka Form No. 28, and the amount of alienated land in No. 26.) Tables II. and III. are framed from the columns of area and produce occurring between columns 149 and 200, and Table IV. from the columns for home consumption and export to be found in the same range of this Statement. The Collector's returns should go to the Executive Engineer for Irrigation in January at latest.

4. *Cotton Returns*, sent to the Cotton Commissioner, under Government Resolution, Revenue Department, No. 217, of January 16, 1867, partly from columns 153 and 157.

5. *Death and Cholera Returns*, sent to the Sanitary Commissioner, under Government Resolution, General Department, No. 2130, of November 16th 1866, and No. 4674 of 7th December 1872, General Department. These are to be framed from the Monthly Abstracts of Village Form No. 14, and the

annual totals put into this Statement in columns 17 to 127, which have been modified to suit the revised record of vital statistics required in Government Resolution, General Department, No. 3872 of 23rd December 1871.

6. *Vaccination Returns*.—The returns sent annually by Mamlutdars, as amended by Government Resolution, General Department, No. 408, of February 18th 1869, is compiled from columns 16, and 40 to 47.

7. This Statement also contains certain information which is ordered to be recorded in Government Resolution, Financial Department, No. 535 of May 10th 1867, but is not transmitted to any higher authority.

8. It will be understood that the columns quoted above refer to the illustration in this Manual. In practice, the numbers will of course vary indefinitely, according to the number of crops in each Talooka, and consequently of columns used in the Statement for it.

PART III.

HUZOOR ACCOUNTS.

INTRODUCTION.

In order that Huzoor accounts may be satisfactorily considered, it is necessary to bear in mind that the Huzoor Office presents three aspects :—

I. It is the centre of local administration, receiving directly or indirectly the Government dues of every description from all Departments, making all disbursements, and controlling a number of minor Treasuries subordinate to its own.

II. It is charged executively with the collection of the Land and Sayer revenue, which is the largest portion of the Government dues, and is therein controlled by the Revenue Commissioner, to whom various particulars have consequently to be, from time to time, communicated.

III. It is a unit in the financial resources of British India, and, therefore, controlled, as to the disposal of its cash collections (whether by expenditure or remittance) by the Accountant General, for whose purposes certain accounts are therefore kept, and to whom various returns are periodically made.

These aspects will now be further particularised.

2. At the Treasury of the Huzoor, considered as a central office,

I.—Central Office. occur several large and important items of receipt (such as *Income-Tax of Sudder Station*) and expenditure (such as Military charges). The first account is therefore the Huzoor Treasury Day Book (No. 1), which is kept in English in the Account Department, and has two supplements recording and securing the actual receipts and disbursements.

which take place in the separate Treasury Room. The Huzoor Treasury Day Book, moreover, contains the grand totals of the Daily Sheets of each of the Subordinate or Talooka Treasuries, and thus exhibits the entire receipts and disbursements of the whole collectorate, as far as they can be known on any given day. From this is framed the Daily Balance Book (No. 2), in which mere transfers are distinguished and a cash balance is struck.

3. At the Huzoor, considered merely as a place of local disbursement, it is necessary to keep some, but not all, of the expansions of the Day Book which have already been prescribed for Talooka Treasuries. The forms of these it is unnecessary to repeat, but they may be enumerated, with brief remarks :

Deposit Registers.—Revenue and Judicial (Civil and Criminal). These are kept in Talooka Forms No. 6 and 7, except that the first column is divided to show the date of receipt of Huzoor and Talooka deposits separately. All the Talooka deposits are embodied in this from the Daily Sheets. Registers framed from them and the Mamlutdars' returns are submitted periodically to the Accountant General. .

Huzoor Pay Abstract.—Similar to Talooka No. 8 and subject to the same rules.

Opium Day Book.—This is similar to Talooka No. 16, but each Talooka to which opium is remitted is debited with the amount as if it were sold to a licensed vendor. The summaries of sales in the Talookas, which are sent in monthly (*vide* page 158), are, however, compiled with the Huzoor sales into a general return, which is sent monthly to the Commissioner of Customs and Opium.

Stamped Paper.—An account is kept in the form of Talooka No. 17, which comprises both dealings with vendors at the Sudder Station and remittances to the Talookas. Of the former a Ledger in Talooka No. 23 is kept. Summaries in forms A and B are prepared, but the latter are simply written off and are excluded from the Summaries. The Summaries B for both Huzoor and Talookas are compiled into a general one in an analogous form which is sent monthly to the Superintendent of Stamps. An annual return is also submitted.

Stamps.—An account in Talooka Form No. 18, comprising both sales and issues to Talookas, is kept, and the extracts of it and the Talooka accounts are similarly compiled for the Superintendent of Stamps. As at the Talookas, separate accounts in this form are kept for each kind of stamps. These issues of stamped paper and stamps are also shown in Plus and Minus Memoranda, which are kept for each kind, and forwarded to the Accountant General, under minor regulations issued from time to time by that Officer, which it is not necessary to particularise here. Further details will be found regarding Postage Stamps in the Rules introduced on 1st July 1873.

Books.—As certain Regulations and Acts and other works are usually kept for sale at the Huzoor, and sometimes issued to the Talookas also (*vide supra* page 92), a stock account of them is kept in a simple Day Book Form, and periodical accounts are sent to the Collector of Bombay.

Miscellaneous Allowances.—It is not usual to keep a Day Book of these in Talooka Form No. 12, as either they are not very numerous, or separate abstracts (as of Pensions) are prepared, but a Ledger (or Petakhatavahee) in Talooka Form No. 22 is necessary for purposes of check and precaution.

The reasons why the other Talooka forms are rarely or never required at the Huzoor are obvious.

4. The Huzoor Treasury Day Book and Daily Balance Book, though they contain, as has been stated, the entire receipts, disbursements, and balances of the whole collectorate, contain them in such a manner—too concentrated as to the Talookas, too diffuse as to the Huzoor, and generally unclassified—that the results, though valuable for present and ulterior financial control, are useless for executive, and chiefly for fiscal, purposes. For those purposes it is necessary that each Talooka should be presented separately, and that all the heads of Revenue Receipts and Charges should be at any time readily distinguishable. Hence arises the necessity for the Talookawar Detail Book of Receipts and Disbursements (Huzoor Form No. 3) and the annual Talookawar Abstract of it (Huzoor Form No. 4), which are to be constantly used for

checking the Talooka accounts, and furnish at the end of the year much information for the Jumma-bundy Returns.

5. In order better to ensure the efficient performance by the Huzoor Office of its duty of collecting

II.—Revenue Collections. the Land and Sayer revenue, and to obviate undue leniency or corruption on the one hand, and harshness on the other, the Revenue Commissioner is vested by Regulation V. of 1830 with control over the whole revenue administration. With this view all Collectors submit to him at brief periods—(1) certain miscellaneous returns calculated to keep him informed of the progress and pressure of the revenue collections, and (2) a complete series of annual statistics, showing the results of the previous year's administration. These returns are as follows :—

5	Miscellaneous Returns.	Refunds of Land Revenue up to Rs. 100 monthly.		
6		Collections and Balances, quarterly and annually.		
7		Return of Distraints and Defaulters, quarterly.		
8		Deposits and Advances, quarterly.		
9		Attachment of Alienations, half-yearly.		
10	Annual Jumma-bundy Returns.	Land Revenue—Demands, Collections, Remissions, and Balances... A.		
11		Ditto	Causes of Increase and Decrease B.	
12		Ditto	Analytical Statement of Balances... .. C.	
13		Tuccaves Advances—Demands, Collections, Remissions, and Balances... .. D.		
14		Ditto	Objects for which made, &c. E.	
15		Ditto	Analytical Statement of Balances... .. F.	
16		Statement of Culturable Lands G.		
17		Ditto	of various descriptions of crops cultivated H.	
18		Sayer Revenue—Demands, Collections, Remissions, and Balances. I.		
19		Ditto	Analytical Statement of Balances J.	
20		Establishments—Charges and Cost of Collection K.		
21		Ditto	Causes of Increase and Decrease in actual charges L.	
22		Ditto	ditto ditto in Service Lands M.	
23		General Inspection Return of Boundary marks N.		
24		Statement of Examination of Accounts by Collectors and Assistants O.		
25		Public Works—Construction and Repairs of Tanks, Wells, &c. ... P.		
26		Statement of Remissions with reasons. Q.		
27	Statement of Lands sold for Building sites.			

Out of the above returns, Nos. 10 to 26 accompany the Jumma-bundy Report, which need not be enlarged upon in this place. The manner in which the Returns are framed will be explained in

the remarks on each. The above returns are the only ones prescribed by Government for general use, but the Revenue Commissioners from time to time call for such additional ones in the vernacular as they find necessary for purposes of check.

6. In Collectorates where there are Dufterdars, and in others where there are no Dufterdars, but native District Deputy Collectors, these officers are held personally responsible that the above Jumma-bundy Returns, along with the Report which accompanies them, have been correctly framed, and duly tested by an examination of, and comparison with, the several descriptions of accounts, and that the rules and orders on the subject have been attended to. In Collectorates where there are neither Dufterdars nor Native District Deputy Collectors, the Revenue Commissioner is to select the most experienced Mamlutdar for the duty. One month ought to be sufficient for the compilation of the Returns and Report, which should be ready by the end of September.

7. It may be useful in this place to recapitulate the various returns, copies, or extracts which Mamlutdars have to send in for the compilation of the Huzoor returns just enumerated.

Daily Sheets—*vide* page 111, used for Huzoor Nos. 1, 2, 3, 9, 12, 15, and 19.

Return of Collections and Balances, monthly—*vide* pages 42 and 295, for Huzoor No. 6.

Returns of Deposits and Advances, quarterly—*vide* pages 256 and 297, or Huzoor Form No. 8.

Talebund, copy—*vide* page 233, for Huzoor Nos. 4, 10, 11, 16, 18, and 22.

Statement of Remissions, copy—*vide* page 235, for Huzoor Nos. 10, 18, and 26.

Statement of outstanding Balances, copy—*vide* page 236, for Huzoor Nos. 10, 12, 15, 18, and 19.

Abstract of Tuccavee Advances, copy—*vide* page 153, for Huzoor Nos. 13 and 14.

Report on rice cultivation—*vide* pages 252 and 307, for Huzoor No. 16.

Statement of products—*vide* pages 252 and 308, for Huzoor No. 17.

Statement of Revenue Collecting establishments, copy—*vide* page 239, for Huzoor No. 20.

Statement of condition of Boundary marks, copy—*vide* page 241, for Huzoor No. 23.

Return of lands sold for building sites—*vide* page 316, for Huzoor No. 27.

As a general rule it may be laid down that the Mamlutdars should not be called on, as they sometimes are, to furnish returns the materials for which already exist in the Huzoor Office. The practice, while imposing on the Mamlutdars work which their establishments were not calculated to perform, tends to slovenliness and absence of efficient check at the Huzoor.

8. Any notice of the Revenue Accounts of a Collectorate would be incomplete without describing the very important position of the Dufterdar with regard to them. The distinction between the Dufterdar and the Chitnees has thus been stated by the Commissioner for the Revision of Civil Subordinate Establishments (Mr. Peile): "The latter (Chitnees) is the Collector's Native Secretary, and has to do with the current work. The Dufterdar undertakes subjects which require patient investigation and experience. The Chitnees has to do with the office and the daily post; the Dufterdar with the district and the system." The Dufterdar is the Collector's personal Assistant, the most trusted and experienced of native subordinates, whose primary duty it is to keep a watchful and extended supervision over the working of the Revenue System. When settlements of villages, intricate revenue claims, or long calculations of any kind come before the Collector, they pass through the hands of the Dufterdar; when the Collector does a Jummabundy, the Dufterdar superintends a minute scrutiny of the papers, reporting all irregularities of rule or practice; when the Collector reaches a Talooka Station the Dufterdar devotes several

days to a complete examination of the records and accounts. During the rains, and at other seasons, when practicable, he similarly overlooks the Huzoor Vernacular Account Department. He also supervises the preparation of the Jummabundy Returns and Report, after a thorough scrutiny of the accounts for the whole year on the closing of Form No. 4. In short, he assists the Collector in performing a mass of duties strictly appertaining to his officer, and of especial importance under a ryotwar system, but the burden of which it would be impossible for him alone to bear. Placed by his position and salary far above the highest Mamlutdars, he can fairly be expected to expose all abuses without reserve, and he is the most valuable coadjutor whom the Collector can possess. In Collectorates where there is no Dufterdar, the Collector himself and the Chitnees must endeavour to supply his place as best they may, with the aid mentioned above, para. 6. The practice of using the Dufterdar as a mere Chitnees, and making him countersign every paper which leaves the office, is quite irregular.

9. Independently of the accounts which have been specified in paras. 2 to 4, a completely distinct series
 III.—Imperial Finance. is kept in the English Account Department for the purposes of the Accountant

General. The forms of these, and full instructions regarding their preparation, and submission, as also the rules under which accounts of all kinds are to be classified and submitted, will be found in the "Accountant's Manual," and are not repeated here, both for that reason, and also because their scope is foreign to Revenue Accounts, properly so called. They are, moreover, subject to frequent modification without reference to the Revenue authorities.

10. It remains to notice the existence of certain special departments which may be said to bank with the Collector ; that is to say, he honours drafts or cheques in their favour when duly sanctioned by the proper departmental authority, and in some cases makes payments in some detail, but he is not, *as Collector*, responsible for the administration of their funds, or liable to audit regarding them. Thus the Public Works and Military Departments draw lump sums from him, the disposal of which is audited by their own

Controlling Officers ; the Customs pay in lump sums as well as draw them ; while the Postal and Telegraph Departments pay in their receipts, but draw out only on abstracts, and keep their own accounts of both. The Local Funds are more directly under the Collector, owing to his having the double capacity of Collector and President of the Local Funds Committee, but that is incidental, so to speak, and, as Collector, he in reality only banks for them as for others, in accordance with such rules as may from time to time be laid down by superior authority.

REMARKS ON FORMS Nos. 1 AND 2.

1. The Huzoor Treasury Day Book contains, as has been explained, the whole of the Receipts and Disbursements of the Collectorate. The transactions of the Huzoor itself are entered during the day as they occur, and the totals of each Talooka's receipts and disbursements are added in the afternoon in lump sums from the Daily Sheets which have arrived. The date of posting must be endorsed on the Daily Sheets.

2. Specie remittances between the Huzoor and the Talooka Treasuries are not passed through the Day Book, because they affect merely the distribution of the Cash Balance, and not the accounts of the Collectorate taken as a whole. Such remittances appear as transfers in the Daily Balance Book. While in transit they are considered to belong to the balance of the remitting Treasury, and are there shown as Cash in transit. They are brought to account by the receiving Treasury on the day they reach it, but they are not written off the balance of the remitting Treasury till the acknowledgment of receipt has arrived there. A difference will thus often appear between the balances in the Daily Sheets and in the Balance Book.

3. It has already been explained (page 111) that Collector's orders are of two kinds; *green*, issued in payment of claims against Government; and *red*, issued for cash received, in order to clear a Talooka Treasury. The disbursement of green orders will, of course, be entered in the Day Book as a Huzoor payment by a corresponding deduction from the total of the Talooka Daily Sheet, and will also be adjusted as a transfer at the Huzoor; but that of red ones will appear in the Balance Book only, the transfer being made on the day the order is issued. The Talooka Balance in that book will thus be less than that in the Daily Sheet until the order is discharged.

4. The manner in which revenue or charges belonging to one Talooka may be credited or debited in the accounts of another has already been explained (pages 117 and 131). In the case of specie remittances between one Talooka and another, a separate entry must be made on both sides of the Balance Book, on the principle explained in para. 2.

5. The Huzoor Day Book differs from the Talooka ones in one important particular, namely, that the Huzoor transactions are classified under headings which are furnished by the Accountant General and according to which the whole of the accounts, both Talooka and Huzoor, are afterwards transferred into the Detail Books, &c., kept for that Officer. This classification has, strictly speaking, no connection with *Revenue* accounts, but is adopted in the Huzoor Day Book to save subsequent trouble.

6. In consequence of the magnitude of the Huzoor transactions and business, the Treasury, where money is actually received and disbursed, is usually a place distinct from the Account Office where the Day Book is kept. Consequently persons having to pay in or receive money first go to the Account Office, where they receive, after investigation, either an order or Chulan, duly signed by the Head Accountant, directing the Treasurer to receive the amount in question, or an intimation that their Bill has been passed by the Treasury Officer and will be paid by the Treasurer. On the issue of the Chulan or passing of the Bill the item is entered in the Day Book.

7. The Treasurer does not keep a second Day Book, but only a brief list, in the subjoined Form A, of his cash receipts and disbursements, and a Register, in Form B, of the currency notes which pass through his hands. He should receive no money except on the authority of a Chulan, and disburse none except on that of a Bill passed by the Treasury Officer. On receiving money, he gives a receipt to the payer signed by the Treasury Officer and himself; on disbursing it he takes the actual payee's signature in his list (Form A.) Just before closing his Treasury, the Treasurer should meet the Head Accountant in the presence of the Treasury Officer, and compare his (Form A) with the Day Book of the latter. Immediately after their respective accounts have tallied, the Treasurer must be careful to return all Chulans, with his initials, and all Bills, with "PAID" stamped on them by him. Where the transactions are large, the Treasurer's List A may be in two parts, one for receipts and the other for charges.

8. There are various minor rules for the guidance of the Account and Treasury Departments and the information of the public, which are not specified here as they appear to come more within the province of the Accountant General, by whom they are from time to time modified.

9. The Huzoor Day Book and Balance Book are always kept in English, but the Treasury Books A and B are usually in the vernacular.

REMARKS.

It has already been explained that, although the accounts which have been described throughout this book, and culminate in the Huzoor Day Book and Balance Book, are complete in themselves, their concentration is not of such a nature that the Collector can be content with it, for either Financial or Fiscal purposes.

2. Since a Collectorate is not a single disbursing and receiving Office, but an aggregate of the Huzoor and numerous Talookas under separate administration, both Financial and Fiscal, it follows that the only way of testing satisfactorily the sum total of any item for the whole Collectorate is by solution into its component parts, and inquiring whether the sum received or paid in each of those parts is the proper sum or not. Hence, primarily, the necessity for separate Talookawar accounts at the Huzoor, without which no Collector can have any confidence that the figures he himself gives to the Accountant General and Revenue Commissioner are correct; and the Accountant General and Revenue Commissioner, who have no means of checking a great portion of those figures, cannot possess any just ground for relying on

what they receive from the Collector. The method in which these Talookawar accounts afford the necessary test will presently be apparent.

3. Immediately on the arrival of the Daily Sheets they are scrutinised by the Head or Deputy Accountant or an experienced clerk, who should endorse on the items the heads to which they belong, and then hand the sheets over to the clerks whose duty it is to enter their totals in the Huzoor Day Book, and to tabulate them in the Detail Books of the Accountant General. When they have done with them they are to be transferred to the Head Carkoon of the Collector's vernacular Account Department, who is responsible that they are thoroughly scrutinised from a Revenue point of view, and duly posted by one of the Carkoons under him in the Talookawar Detail Book. This book is to be kept in the vernacular. There will be a separate section for each Talooka and one for the Huzoor. The Talooka sections are closed monthly on the same days as the Day Books in the Talookas (*vile* page 110), but the Huzoor section follows the calendar month. The Huzoor section is compiled direct from the Day-Book or English Detail Book.

4. One important difference exists between the posting of the Daily Sheets in the Huzoor Day Book and in the Talookawar Detail Book; namely, that in the former they are posted on the day of arrival, whereas in the latter they appear on their true Talooka dates. Hence the transactions in the latter are recorded as they really occur, but a daily balance cannot be struck at the time, while those in the former are in one sense fictitious, but a daily balance is obtained through the Balance Book, which though not accurate, is near enough for purposes of supply of treasure.

5. It is of course essential that the Talookawar Detail Book should be regularly written up and promptly compared with the Huzoor Detail Book of the Accountant General, so the Head Carkoon or one of his Carkoons is required to go daily to the Account Department for the purpose. All discrepancies should be at once reconciled, or suitable orders regarding irregularities drafted for the Talookas, in the presence of the Treasury Officer. In order to prevent laxity in this respect, however, the clerk writing the English Detail Book and the Head Carkoon are required to initial the Talookawar Detail Book daily, and in addition to this, a certificate in the accompanying form A must be sent to the Collector once a month on the same day that the midmonthly list of payments goes to the Accountant General, and another in form B on the day that the other fortnightly list of payments and the monthly list of receipts are forwarded to that Officer.

Form A.

This is to certify that the Disbursements in the English Detail Book No. VI. for the period from 1st to 15th have been compared with the disbursement side of the Talookawar Detail Book No. 3, and that the two correspond.

May 17th, 1871.

Signed,

Head Carkoon.

Signed,

Head Accountant.

Signed,

Huzoor Deputy Collector.

Form B.

This is to certify that both sides of the Talookawar Detail Book, as also the monthly column of the Annual Talookawar Abstract for the past month, have been compared with the English Detail Book No. VI. and the two lists of Disbursements for the month and with the List of Receipts this day forwarded to the Accountant General, and that they all correspond.

June 2nd, 1871.

Signed,

Head Carkoon.

Signed,

Head Accountant.

Signed,

Huzoor Deputy Collector.

It is obvious that the midmonthly and daily examination can only be by comparing the separate Talookas and individual daily entries under them in the Detail Book, but that at the end of the month the grand totals also, owing to the Talooka accounts closing earlier than the Huzoor, will be found to correspond with those in the English accounts.

6. It has been already mentioned (Remarks on Forms Nos. 1 and 2, para. 5) that the Huzoor Day Book contains headings of account which are furnished by the Accountant General, and the noting of those heads on the Daily Sheets has been referred to above (para. 3). The posting of the Daily Sheets in No. 3 is also classified, and must generally correspond with that in the Accountant General's Detail Books. There are, however, two broad exceptions to this. This Form must on the one hand contain certain details, chiefly discriminating past from present year's items, which the Accountant General does not need, but which are inserted in the annual Jumma bundy Report, but on the other, there is no necessity for its showing the detailed information on certain heads of charge, such as Military, which are in no way under the Collector's executive control, and can be seen in full and checked sufficiently by him in the English Account Office.

7. The basis of classification in all Collectorates is the Imperial Budget and the "Lists" corresponding with it which are supplied by the Accountant General for the transmission of the monthly accounts, but considerable discrimination will be necessary in selecting the headings and sub-headings which will be appropriate for insertion in this Form in any given Collectorate, so as on the one hand to include all detailed information which is necessary for the Jumma bundy Report and for control of various degrees, but on the other not to embrace a mass of useless detail.

8. In making such a selection, the first principle to be remembered is that complete information for the Jumma bundy Report must be afforded, and the Accountant General's sub-headings amplified where indispensable for this purpose. Thus, Revenue Collections must appear in full with the current distinguished from past years for the Jumma bundy Returns A, C, F, I, and J, and all charges must be shown in detail which it is usual to deduct in framing Return I. All Charges which enter into Returns K and L must likewise be given in full.

9. Another principle is, that all Departments must appear in full which are more or less under the executive control of the Collector and of officers subordinate to him. Thus all sub-headings of not only Land Revenue and similar major heads, but of Forest, Criminal Courts, Registration Department,

and Police are required, in order that they may be thoroughly checked both at the Huzoor and when this Form is taken out to the Talookas for comparison, as will be presently described. In case, however, the transactions of any such Department appear at the Huzoor only (*e.g.*, if the Police in the Talookas are paid entirely by green orders) its sub-headings may be dispensed with here, because they can be found complete in the English Detail Book. On the other hand, no sub-headings are needed of Civil and Sessions Courts, Jails, Education, Medical Services, &c., but it appears sufficient to give the totals of minor heads, so that in the event of errors of classification occurring in either the Detail Books or this Form they will be detected at the daily comparison between the two. And where minor heads under the Collector are not numerous or complicated they also may be dispensed with, at the discretion of the Collector. In the general spirit of the above principle, sub-headings are also required of certain heads of disbursement, such as Allowances and Assignments under Treaties and Engagements, which are specially entrusted to the Collector, and require careful scrutiny and occasional modification according to decisions passed.

10. It should be added that there may be Departments, where sub-headings are required in order to give information periodically of the state of their accounts.

11. It is obviously impossible to give in this Manual any list of headings which would exactly suit all Collectorates. The list which is given here, however, has been carefully prepared in accordance with the above principles, and it is believed that it contains the maximum of detail required, and can be adapted to any Collectorate by simply striking out whatever major and minor heads or sub-headings are unnecessary for the transactions there. Consequently no Collectorate will require a Form No. 3 nearly as lengthy as the present illustration. In any special case where more sub-headings may be needed than are here given they can of course be inserted from the Accountant General's lists.

12. It remains to notice that this account is intended to be extensively used in testing those kept at the Talookas. Whenever either a Collector or an Officer in charge of a Talooka is about to visit the Talooka Station for the purpose of examining the accounts, he should obtain from the Huzoor the portion of this account relating to that Talooka, and should carefully compare it with the Talooka Day Book, No. 2, and other expansions. Errors which have been made in the Daily Sheets, whether of money or description of items, will thus be brought to light, and false Daily Sheets with a view to fraud rendered almost impossible. It has also been laid down in Government Resolution No. 1454 of November 6th, 1869, that at the end of the Revenue year the Assistant or Deputy in charge of the Talooka shall compare the collections shown in this Form, with the amount of the several items of revenue represented as to be collected in the Jumma bundy Talebund and certify to their correctness, and the amount of balance outstanding. All inaccuracies discovered by Assistants or deputies should be promptly brought to the notice of the Collector, the explanation of the Mamlutdar being at the same time appended. The account obtained from the Huzoor should be carefully returned with as little delay as possible. Monthly comparison of this Form with the No. 2 Form of each Talooka has already been fully noticed at page 117.

REMARKS.

This is an annual compilation of Form No. 3, with a General Summary of Debt, Demands, Collections, and Balances for the whole year. The monthly totals of each Talooka Section of Form No. 3 are transferred into a monthly sheet in this form, the grand totals of each head are calculated, and a careful comparison with the Abstract Book No. VII. in the Account Department is made before the Lists are forwarded to the Accountant General and the certificate prescribed above (page 289) to the Collector.

2. At the close of the year the twelve monthly sheets are compiled into one in the same form for the whole year, which should be carefully tested.

3. The General Summary of Debt, Demands, Collections, and Balances is framed partly from the portions of the above annual sheet which are applicable, and partly from the last year's Summary, the Deposit Registers, and the Talooka Talebunds (Talooka Form No. 28) which are sent to the Huzoor for the preparation of the Jummabundy Report. The amount of outstanding balances written off is obtained from the Mamlutdars' Jummabundy Returns. It should further be tested by Talooka No. 30 and the Plus and Minus statements of the Accountant General. If further scrutiny be thought desirable, a copy of the Summary of Talooka Form No. 19 may be obtained from each Talooka, or a Carkoon called in with the original Talooka Nos. 2 and 19.

4. This account will be found useful in preparing Huzoor Forms Nos. 10, 18, 20, and 21, and in testing Nos. 13 and 14 as well as in comparisons made at the Talookas with Form No. 3 as already explained.

HUZOOR FORM No. 5.

*Statement of Revenue Refunds up to Rs. 100 made by the Collector of
under the authority of Government Resolution No. 5246 of 1st
December 1869, during the month of September 1870.*

Number.	Name of Village and Person.	On what Account.	Year.	Amount.	Total.	In what Year, Month and Date credited in the Account and the Amount so credited.	Date of Order sanctioning the Refund.	Date of Refund.	Reasons for over collections.

Collector.

REMARKS ON HUZOOR FORM No. 6.

A Return in this form in the vernacular is sent by the Collector to the Revenue Commissioner in the months of November, February, and May. The Return for the last quarter of the revenue year, which is due in August, comprises the demands, collections, and balances of the whole twelve months, and is in the subjoined Form :—

Annual Statement of Collections and Balances of the Collectorate of
 _____ *for the year 1870-71.*

Number.	Name of Talooka and on what Account.	Government demand as per Jumma-bundy Settlement.	Collections from August 1870 to July 1871.	Balance at the end of July 1871.	Installments due in future Years.	Amount of instalments due but not paid.	Reasons for Balances.

These Returns are to be compiled from Returns in the same form, to be obtained by the Collector through the Assistant or Deputy in charge from the Mamludars, punctually on the close of each month. The instalments of the current year will mostly be obtained from the Village Accountants—(*vide supra*, page 42, para. 2).

2. Similar Returns of Balances of former years should be forwarded when there are any outstanding. Should there be none, a note to that effect at the foot of the Returns of the current year is sufficient.

HUZOOR FORM No. 7.

Return of Distraints and Defaulters imprisoned for Revenue Demands for the Quarter ending _____ in the Collectorate of _____

Name of Talooka.	Number of Item.	Name of Village.	DISTRAINT.				CONFINEMENT.			
			Number of Cases.	Amount of Demand.	Amount realized on account of demand by the sale of property.	Remarks.	Number of Cases.	Amount of Demand.	Actual period each defaulter remained in confinement.	Remarks.
Bardolee Peta Walore.	1	Cusba Walore.	1	48 13	8 55 0 0	Hoosein Unwur—on account of Land Revenue; out of Rs. 55, Rs. 50 (48-13-8 principal and Rs. 1-2-4 interest and notice fee) credited to Government and the balance Rs. 5 refunded to the party.				
Checklee ...	2	Cusba Checklee	5	200	15	Jeewa Jugga—on account of Abkarc Revenue. The property belonging to him having been removed he was sent to the Civil Jail, where he remained for 15 days, and whence he was released on paying the amount.

(Signed)

Collector.

Collector's Office, 10th August 1870.

REMARKS.

This Return should be compiled in the vernacular in the Collector's Office from the correspondence in each case and transmitted to the Revenue Commissioner as soon as possible after the close of each quarter of the Revenue year.

HUZOOR FORM No. 8.

Return of Deposits and Advances in the _____ Collectorate for the Quarter ending October 1870.

No.		On what account.	Balances at the end of October 1870.				Reasons for the balances.
Current.	Of the last Quarter.		A.D. 1868-69	A.D. 1869-70	A.D. 1870-71	Total.	
		DEPOSITS.					
1	1	Revenue— Out of Mulvero for constructing Ootara	100	200	300	This amount will be disposed of after the completion of the Ootara.
		For other purposes. Total.....	100	200	300	
2	6	Judicial— Reward out of fine	20	20	To be paid to the proper party at the expiration of the period of appeal.
		For other purposes. Total.....	20	20	
		Grand Total of Deposits.....	100	220	320	
1	4	Advances— Superintendent of Revenue Survey for Boundary Marks	100	50	150	Will be adjusted on receipt of bills from the Superin- tendent of Survey.
		Total.....	100	50	150	

(Signed)

*Collector.**Collector's Office, 10th November, 1870.*

REMARKS.

This Return is sent to the Revenue Commissioner in the vernacular, and is compiled partly from similar Returns obtained from the Mamlutdars and partly from the Huzoor Deposit Registers. The Talooka Returns are, moreover, tested by the Huzoor Registers which comprise the whole Collectorate. Where advances are so numerous that the Mamlutdar cannot make up his return conveniently from the Day Book, a general Advance Book may be kept by him in the form of Talooka No. 6.

HUZOOR FORM No. 9.

Return of Refunds of Collections on account of Alienated Lands under attachment during the half year ending 31st January 1871, Collectorate of _____

Name of Aliance.	Cause of Attachment.	Duration of Attachment.	Collections during attachment.		How credited in the Accounts.	Authority for removal of attachment with its number and date.	Amount refunded.	Date on which refunded.	Remarks.
			Area of Land.	Amount.					
1	2	3	4	5	6	7	8	9	10
Atmaram Govindram.	Died intestate	2 Years.	Acres 7.	42 0 0	Credited under Land Revenue.	Collector's order No. dated	42 0 0	3rd October 1870	A Summary Settlement Sunnud has been issued.

(Signed)

Collector.

Collector's Office, 10th February 1871.

REMARKS.

This Return is submitted to the Revenue Commissioner in English (Revenue Circulars, page 64), and is compiled at the Collector's Huzoor from the correspondence in each case, which should pass through the Huzoor Deputy Collector for his information, and from the actual disbursements occurring in Huzoor Form No. 3 and the Daily Sheets.

HUZOOR FORM No. 10 (A).

*Contrasted Statement exhibiting the Gross and Net Land Revenue of the
Collectorate for the Land Revenue years A.D. 1870-71 and
A.D. 1869-70, together with the Amount of Realizations, Remissions, and
Sums written off, and of the Balances outstanding on account of current
and former years up to the 1st August of each year.*

REMARKS.

Columns 1 to 14 of this Return are chiefly prepared at the Huzoor from Form No. 4, from which the whole of the sub-headings which are considered to come under the designation of "Sayer" are extracted and ranged under the main heads (or items) here given. Where there are debits against any amount received, such as Stamp vendors' discount, fines repaid, &c., only the net receipt is entered, so that the Return may show as far as possible the true Sayer receipts. The demands, remissions, and balances of Abkaree can be obtained from Talooka Forms Nos. 28, 29, and 30—from No. 28 for columns 1, 4, and 5, from No. 29 for columns 2 and 10, and from No. 30 for columns 12 and 13; columns 15 to 28 are copied from the Return for the preceding year.

HUZOOR FORM No. 19 (J).

Analytical Statement of Balances outstanding on the 1st August 1871 on account of the Sayer Revenue of _____ as shown in Column 14 of Statement I.

No.	Amount.	Remarks by the Collector.	Current year's Balances.	Former years' Balances.	Total.
		<p><i>Note.</i>—In framing this Statement the entries should be given in the manner prescribed in Statement C.</p>			

REMARKS.

The remarks made regarding Huzoor Form No. 15 are applicable to this Return also.

HUZOOR FORM No. 20 (K).

*Contrasted Statement of Sanctioned and Actual Charges of Collection in the _____
Collectorate for the years 1869-70 and 1870-71.*

Names.	Sanctioned.				Actual.			
	1870-71.		1869-70.		1870-71.		1869-70.	
	Amount.	Percentage of the Revenue shown in columns 8 and 9 of Statement I.	Amount.	Percentage of the Revenue shown in columns 22 and 23 of Statement I.	Amount.	Percentage of the Revenue shown in columns 8 and 9 of Statement I.	Amount.	Percentage of the Revenue shown in columns 22 and 23 of Statement I.
1. Allowances to gazetted Officers.....								
2. Huzoor Kutcherry Charges								
3. District ditto ditto.								
District Travelling Allowance of European Officers and Batta of Native Officers								
5. District Hereditary Officers								
6. Village Officers, Hereditary and Stipendiary...								
7. Village Expenses								
Total...								

REMARKS.

The Talooka sanctioned figures of the current year for insertion in this Return are obtained from the copy of Talooka Form No. 32, and the remainder from the Huzoor Abstracts, &c. All the actual charges come from Huzoor Form No. 4. The figures of last year are, of course, taken from the last year's Return. The percentage cost is calculated from Huzoor Form No. 18, as shown in the headings of the columns.

HUZOOR FORM No. 21 (L).

HUZOOR FORM No. 25 (P).

Statement of Charges incurred on account of repairs to and construction of Tanks, Wells, &c., under the sanction of Government by the Collector of _____ and his Assistants, under the discretion vested in them in Government Letter No. _____ dated _____, in the year A. D. 1870-71 furnished under the instructions of Government No. 9456, dated 29th September 1851, para. 3.

By whom authorized.	Talookas.	Villages.	Description of work.	Date of sanction.	Amount sanctioned.	Amount expended.	Amount of contribution by Villagers.	REMARKS.

ABSTRACT.

			Rs.	a.	p.
Amount under the authority of the Collector					
Ditto ditto 1st Assistant Collector					
Ditto ditto 2nd Ditto					
Ditto ditto District Deputy Collector					
Total Rupees.....					

REMARKS.

The disposal of the "Discretionary Allowances" has been materially limited by Government Resolution, Public Works Department, No. ^{22 A}/₁₈₈ of January 23rd. 1867.* One-fourth of the allowance alone is available for repairs, and the Bills must be passed by the Superintending Engineers. Grants-in-aid to purely local works are forbidden. "The use of the works, in an Imperial point of view, must be distinctly stated in the order. For instance, a Chowree may be built for the Patel, or Tulatee, to transact business in; a road to a Government Kutcherry may be repaired; roadside trees may be planted along Imperial lines of road, and Imperial funds may be used for otherwise improving Imperial roads; a well may be sunk close to a Police Station to provide water for the Police, and even if the inhabitants contribute to it, * * * the work may still be charged to this grant." This Return is to be filled in from the correspondence regarding the several works, and tested by the Daily Sheets and Huzoor English Public Works accounts if necessary.

* At present (1873) no such allowances are granted at all.

HUZOOR FORM No. 26 (Q).

Statement of Remissions, with reasons, for the Collectorate of—A. D. 1870-71.

ERRATA.

- Page 4. Line 13, for "to do in yearly person" read "yearly to do in person."
- " 7. Lines 9 and 10 of last paragraph, for "attested by whom" read "attested by him."
- " 67. Below the item of Rupees 5 for sayer for date trees, draw a line to show that the figure following is a total.
- " 74. Line 1 of paragraph 4, for "both the births and deaths' side" read "both the births and death sides."
- " 83. Last line, for "alinated lands" read "alienated lands."
- " 84. First line of last entry in column 4, for "Received 25th August 1870" read "Received 26th August 1870."
- " 95. Line 5 of paragraph 15, for "at the Mahal town" read "at the Mahal, town."
- " 99. For "Huzoor Form No. I" read "Talooka Form No. I."
- " 101. Line 1, against the entry "expenses this day", insert cyphers in the last two columns.
- " 102. In item No. 12 in column 3, for "Separate Book of Sales and Issues of Stamped Paper" read "Separate Book of Sales of Stamped Paper."
- " 102. In the same item in column 4, for "sold direct from the Talooka" read "sold from the Talooka."
- " 102. In item No. 13 in column 3, for "Separate Book of Sales and Issues of Postage Stamps" read "Separate Book of Sales of Postage Stamps."
- " 102. In item No. 15 in column 4 under the Educational portion for former years, for "50-0" read "5-0-0."
- " 105. Separate the entries for 3rd August 1870 and those for 25th August 1870 by a line between them across the page.
- " 106. In column 1 in the last entry, for "1870 January 10th" read "1871 January 10th."
- " 107. In item No. 50 in column 4, for "village servents" read "village servants."
- " 107. In the entry for 10th January 1871, strike out the cyphers against "Balance" in columns 4, 5 and 6.
- " 108. In the entries for 25th March 1871, read the opening balance as above item No. 220 and not as in the same line with it.

- Page 109. In the item for 25th March 1871 in column 2, insert 91.
- „ 113. First item in column 18, for “46” read “46-0-0.”
- „ 113. Second item in column 18, for “18” read “18-4-0.”
- „ 114. In the Summary at the foot of column 27, read the items of Rs. 20 and Rs. 5 as subordinate to Rs. “25 Sayer.”
- „ 116. Last line, for “sa contributories” read “as contributories.”
- „ 122. Second entry in the last column, strike out “100.”
- „ 132. In the heading of column 6, for “accoun” read “account.”
- „ 134. In column 1 of Abstract A in the first three entries, insert 1.
- „ 138. Against the last entry in column 1, insert 5.
- „ 139. In columns 5, 11, and 13 above entry No. 4, strike out the figures 100, 40, and 50, as also the cyphers in the other columns.
- „ 156. Below the black line in the middle of the account, for “5tt September” read “5th September.”
- „ 160. In the entries for 10th August 1870 on the Dr. side opposite “100-0-0 7th Class”, insert “100” as the No. of papers.
- „ 163. In column 22, transfer from the 9th entry of Rs. “80-00” the extra cypher to the 8th entry of Rs. “25.”
- „ 168. In the heading of columns 3, 4, 14 and 15, for “envelope” read “envelopes.”
- „ 168. Under column 19, for “Ordinary abels” read “Ordinary Labels.”
- „ 163. The column of ordinary labels under column 19 should be subdivided to show labels as well as sheets.
- „ 172. Opposite the third head of Revenue, insert, in column 1, 261.
- „ 174. In the Summary, strike out the cyphers opposite “current year” in column 2.
- „ 176. In line 7 of paragraph 2, insert a comma after “Farmers of Abkaree.”
- „ 184. In column 1, for “Desa” read “Desai.”
- „ 183. In column 6 in the 7th line from bottom, for “Total fo” read “Total for.”
- „ 194. The heading of column 7 on the Cr. side, for “No. of paper” read “No. of papers.”
- „ 196. In line 4 of paragraph 8, for “whicp” read “which.”
- „ 196. Fourth line of paragraph 10, for “Day Boo” read “Day Book.”
- „ 198. Last line of the entries for 2nd August 1870, for “orty-six” read “forty-six.”
- „ 199. The total of the entries for 1st August 1870, for “846” read “868.”
- „ 200. Last line, add at the end “Handwriting Bheemashunker Baj bhais.”

- Page 201. Last line, add at the end "Hardwriting Bheemashunker Bajibhai's."
- " 202. The entries and figures in columns 4 to 7 above the figures of the sale to "Ardeshir Dorabji, Surat" should be moved up so as to appear as the total of the papers sold on 10th August.
- " 202. The entries in columns 8 to 12 below the line which closes the transactions of 10th August 1870 should be moved down so as to be in one line with the entries of the sale to "Ardeshir Dorabji, Surat."
- " 206. Read column 13 as subordinate to "Increase" instead of to "Political Inams."
- " 214. In line 13 of paragraph 1 after "Jumma bundy", add "under Miscellaneous Land Revenue."
- " 220. } In the headings of columns 58 and 66, for "assessment" read
 " 221. } "amount."
- " 227. Read the entries "Talooka Wuttondars whose services have been retained" and "Village servants" in column 1 as co-ordinate with "Wutton Inams."
- " 223. In column 3 opposite "Other Revenues", for "259-2" read "141-0."
- " 223. In column 5 opposite "Other Revenues", for "331-2" read "213-0."
- " 228. In the total at the foot in column 3, for "2,527-7" read "2,409-5."
- " 228. In the total at the foot in column 5, for "25,39-11" read "2,421-9."
- " 231. In column 1, read "farms of poisonous substances" as co-ordinate with "one-anna cess."
- " 239. In the last line, for "power" read "powers."
- " 252. Line 2 of paragraph 1, for "Nos. 13, 14, 14, and 16" read "Nos. 13, 14, 15, and 16."
- " 256. Strike out the sentence "Of the former a ledger in Talooka No. 23 is kept." in lines 6 and 7 from bottom.
- " 261. Line 7, for "officer" read "office."
- " 267. Insert at the foot "(Signed)"

Officer in charge of the Treasury."

- " 292. Read the "Total" and "Corrections" columns in Huzoor Form No. 4 as co-ordinate with "Huzoor and Talookas."
- " 303. Line 3 of the heading of the form, for "current" read "current."
